EOL NOTIFICATION

Dear Valued Customer,

We regret to inform you that the CDC4D20 series has been discontinued effective immediately.

This decision has been made due to ongoing challenges in securing the necessary raw materials required for the continued production of this series. Despite our best efforts to maintain supply and explore alternative sourcing options, these constraints have made it unfeasible to sustain manufacturing operations at the required standards and reliability.

As a result, all existing and pending orders for the CDC4D20 series will be cancelled. We understand the inconvenience this may cause and sincerely apologize for any disruption to your operations.

Our team is available to assist you in identifying alternative products that may meet your requirements. Please do not hesitate to contact us for support, recommendations, or further clarification.

We greatly appreciate your understanding and continued partnership.

Sincerely,

Laura Starks

Distributor Sales Manager, Americas
