Subject: Change to Ultralife Corporation Lithium 9V Battery

This letter is to inform you that effective August 1, 2021, Ultralife Corporation will be making a minor chemistry change to its standard 9V battery product. This change will not have any material impact on the form, fit, or function of our 9V battery and the product will continue to perform to the specification outlined in our Technical Data Sheet (TDS) and comply with our Material Safety Data Sheet (MSDS).

If you have any questions regarding this change or have specific requirements where you need more information and technical support, please reach out to your Ultralife point of contact to discuss your concerns.

Thank you for your understanding and your continued support of Ultralife and our products.

Sincerely,

Eric T. Lind
