Wolfspeed® Major Product/Process Change Notification

PCN Number:	PCN-00265	PCN Issue Date:	October 28, 2026
PCN Type:	Major		

PCN Title

Partial Lot Combination for Wolfspeed Discrete Automotive Devices

Description of the Change

Wolfspeed will implement partial lot combinations on shipping labels for all discrete Automotive devices. This change allows the combination of up to three different date codes into a single reel, tube, or inner box.

Key Details:

- The maximum allowable time variance between date codes will not exceed six months.
- 200mm and 150mm lots will remain separated.
- The label will display all date codes included.
- Each unit will retain its individual lot and box ID, ensuring full traceability.
- For returning parts, please ensure that the relevant label information and delivery note (DN) number are available.

Table 1. *Details of the change.*

From	To
Inner Tube mixing rules – No mixing of date codes in any single tube. Inner Box mixing rules – No mixing of date codes in single inner box. For any Tape & Reel – No mixing date code inside the same reel.	Inner Tube mixing rules – allow mixing of 3 different date codes in any single tube. Inner Box mixing rules – allow mixing of 3 different date codes in single inner box. For any Tape & Reel – allow mixing of 3 different date codes inside the same reel.

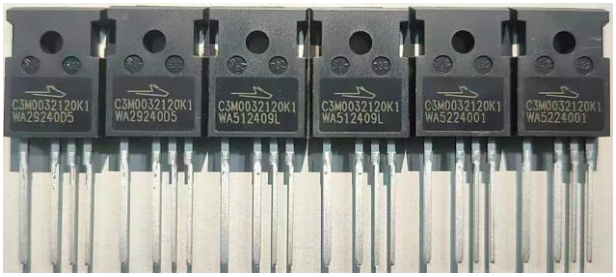

Figure 1. *Example Combination of three different date codes that may be combined into a single reel, inner tube, or inner box*

This material is the confidential and proprietary information of Wolfspeed, Inc. It may not be used by any individual or entity except for company employees for company business. This material may not be disclosed or reproduced without the prior written consent of the company.

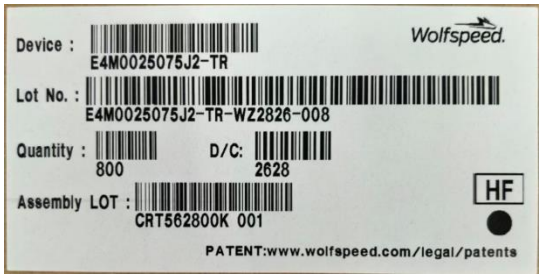

***Figure 2a**. Example of a current inner box label with one date code.*

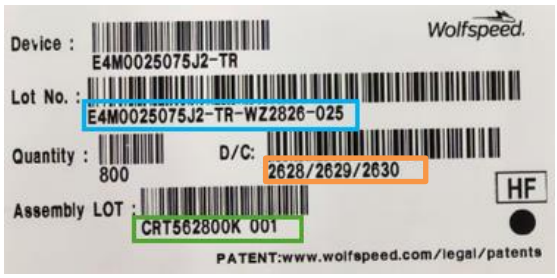

***Figure 2b**. Example of a partial lot combination inner box label with three date codes.*

In Figure 2b:

- The **Lot Number (E4M0025075J2-TR-WZ2826-025)** includes the oldest date code (WZ2628) and a unique sequential identifier (-025).
- Each **Partial Lot Date Code** is listed on the label.
- The **Assembly Lot Number (CRT562800K 001)** is a unique number used to track whether parts were included in a partial combined lot.

Note: The part marking provides assembly lot and wafer lot traceability. It is not used to track partial lot shipments.

Benefit of the Change

As part of Wolfspeed's commitment to continuous improvement, the affected product categories will be labeled to enable more efficient processing across Wolfspeed manufacturing locations.

Affected Products

All Wolfspeed Discrete Automotive Devices.

Anticipated Impact

No customer action is required. There is no change to product form, fit, function, or reliability.

Implementation Date

Table 2 provides the estimated dates for key PCN milestones based on the information available on the date this PCN is issued. Any updates to these dates can be provided by your Wolfspeed contact.

***Table 2.** Estimated Key PCN Dates.*

Task	Date
Projected First Ship Date	180 days after PCN issued date, or upon customer approval

Customer Acknowledgement

Customer is requested to acknowledge this notification within 30 days from its issue date by signing this PCN, scanning it into a pdf file, and emailing the file and any feedback to Wolfspeed at PCN@wolfspeed.com. Note that Wolfspeed references the JEDEC J-STD-046 guideline for its PCNs. In accordance with J-STD-046, this change is deemed acceptable to the customer if no acknowledgement is received within 90 days (Industrial), and 180 days (Automotive) from the PCN issue date.
