

Final Product/Process Change Notification

Document #:FPCN24140Z

Issue Date:11 Apr 2022

Title of Change:	Addition of onsemi Seremban, Malaysia as an assembly site for iBGA packaging	
Proposed Changed Material First Ship Date:	11 Oct 2022 or earlier if approved by customer	
Current Material Last Order Date:	31 Aug 2022 <i>Orders received after the Current Material Last Order Date expiration are to be considered as orders for new changed material as described in this PCN. Orders for current (unchanged) material after this date will be per mutual agreement and current material inventory availability.</i>	
Current Material Last Delivery Date:	10 Oct 2022 <i>The Current Material Last Delivery Date may be subject to change based on build and depletion of the current (unchanged) material inventory</i>	
Product Category:	Active components – Integrated circuits	
Contact information:	Contact your local onsemi Sales Office or Geethakrishnan.Narasimhan@onsemi.com	
PCN Samples Contact:	Contact your local onsemi Sales Office to place sample order. Sample requests are to be submitted no later than 45 days after publication of this change notification. Samples delivery timing will be subject to request date, sample quantity and special customer packing/label requirements.	
Sample Availability Date:	06 Apr 2022	
PPAP Availability Date:	31 May 2022	
Additional Reliability Data:	Contact your local onsemi Sales Office or Amy.Wu@onsemi.com	
Type of Notification:	This is a Final Product/Process Change Notification (FPCN) sent to customers. The change will be implemented at ‘Proposed Change Material First Ship Date’ in compliance to J-STD-46 or ZVEI, or earlier upon customer approval, or per our signed agreements. onsemi will consider this proposed change and it’s conditions acceptable, unless an inquiry is made in writing within 45 days of delivery of this notice. To do so, contact PCN.Support@onsemi.com .	
Change Category		
Category	Type of Change	
Equipment	Production from a new equipment/tool which uses the same basic technology (replacement equipment or extension of existing equipment pool) without change of process.	
Process - Assembly	Move of all or part of assembly to a different location/site/subcontractor., Die attach material	
Description and Purpose:		
In order to provide higher and flexible capacity to meet growing demand, onsemi is adding an additional site for wafer backgrind and iBGA assembly at its Seremban internal manufacturing facility. Key material inputs and manufacturing site changes are shown in the table below. Units assembled in Seremban will be tested at KYEC (Taiwan), which is already used to test units assembled at Kingpak and ASEM. There is no change to the final test program. Kingpak and ASEM will continue to test units assembled at their respective sites as well.

Product marking change		

There are product marking changes as a result of this change as shown above.

Reason / Motivation for Change:	Source/Supply/Capacity Changes
Anticipated impact on fit, form, function, reliability, product safety or manufacturability:	The device has been qualified and validated based on the same Product Specification. The device has successfully passed the qualification tests. Potential impacts can be identified, but due to testing performed by onsemi in relation to the PCN, associated risks are verified and excluded. No anticipated impacts.

Sites Affected:	
onsemi Sites	External Foundry/Subcon Sites
onsemi Seremban, Malaysia	None

Marking of Parts/ Traceability of Change:	Date Code Oct 2022
