

Title of Change:	SOT-323 / SC70 onsemi Standard Marking Lay-out Implementation
Effective date:	06 Aug 2024
Contact information:	Contact your local onsemi Sales Office
Type of notification:	This Product Bulletin is for notification purposes only. onsemi will proceed with implementation of this change upon publication of this Product Bulletin.
Change Category:	Marking Change
Change Sub-Category(s):	Shipping/Packaging/Marking

Sites Affected:

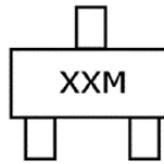

onsemi Sites	External Foundry/Subcon Sites
None	None

Description and Purpose:

SOT-323 / SC-70 package builds in AUK and JCET will start to use onsemi Marking Layout Configuration. This is part of the alignment and marking standardization. OPNs assembled in different sites will now have standardized marking format and will just differ on the plant code. Sample marking change is shown below:

Fairchild marking

Onsemi Standard marking

Legend:
 XX – Device code
 M – Date code

Note: This information is generic. Please refer to device datasheet for actual part marking.

List of Affected Standard Parts:

Note: Only the standard (off the shelf) part numbers are listed in the parts list. Any custom parts affected by this PCN are shown in the customer specific PCN addendum in the PCN email notification, or on the [PCN Customized Portal](#).
