

XM/XR RF Development Tools

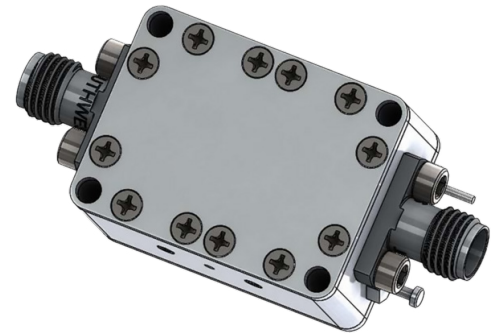

X-MWblock

7/1/2026

For the most up-to-date information, visit [mouser.com](https://www.mouser.com) or the manufacturer's website.

DESCRIPTION

X-Microwave XM/XR RF Development Tools offer modular design system technology for the RF and microwave industry. These boards use X-MWblock® modular building blocks, so engineers can quickly prototype and build efficient, cost-effective systems. All the XR part numbers are RoHS-compliant. Typical applications include wireless infrastructure, radar, navigation, transportation, quantum computing, medical devices, and test/measurement.

APPLICATIONS

- Wireless infrastructure
- Radar
- Navigation
- Transportation
- Quantum computing
- Medical devices
- Test/measurement
