

8909NBG

Aavid 8909 Snap on Cove is designed to prevent accidental electrical shock, the 8909 fits TO-3 case styles. A test probe hole in top eliminates the need to remove cover for testing. Recommended for low vibration applications. A precise friction fit is required for proper assembly. Please read the [engineering information release](#) for more details on the fit problems that can arise.

The 8903 cover shown above is recommended for most applications due to the typical size variation of the TO-3 package.

Material: Nylon

Color: Black

Flammability Standards: UL 94 V-2
