

ULTRAMINIATURE RECTANGULAR SERIES 791 CONNECTORS

**The Scoop-Proof High Performance Environmental Connector for
Signal, Power, RF, and Datalinks**

FIRST EDITION – APRIL 2018

HIGH PERFORMANCE

Series 791

The Next-Generation Ultraminiature Rectangular Connector for Demanding Aerospace Applications

Sometimes the simplest ideas are the best ideas. The Series 791 is a simple idea. Let's create a brand new class of connector—the ultraminiature rectangular. Let's combine the versatility of the Series 790 Micro-D connector with the rugged features of our popular HiPer-D M24308 type connector. Let's add a unique dual lobe shell and recess the pins to eliminate the possibility of scooping damage. Then let's add high speed datalink capability.

Originally designed for NASA's Orion project, the Series 791, with all its special features, is qualified for manned space flight. The Series 791's small size and blind mate capability make it a perfect choice for 2U and 3U electronics modules. Applications include radars, weapons systems, comms gear, satellites, exoatmospheric vehicles, avionics, power distribution units, instrumentation, and other applications that require a smaller, higher performance interconnect system.

- Next-generation small form factor aerospace-grade rectangular connector
- Scoop-proof
- 37 arrangements, 12 shell sizes for the ultimate in versatility
- Machined aluminum shell
- Environmental
- EMI protection
- Blind mating

About the Series 791 Ultraminiature Rectangular Connector

Save Size and Weight with Series 791 Connectors

The Next Generation Ultraminiature Rectangular Connector for Demanding Aerospace and Defense Applications

About The Series 791

The Series 791 is an aerospace-grade ultraminiature rectangular connector with EMI protection and environmental sealing. Originally developed for NASA's Orion capsule, The 791 is qualified for manned space flight and is ideal for radars, weapons systems and avionics gear.

The Series 791 is available either with crimp pins or with printed circuit terminals. Machined aluminum alloy shells feature dual lobes for polarization. Contact sizes range from size 8 to size 23 in 37 arrangements. Pin contacts are recessed to prevent scooping damage while mating. Crimp contacts conform to M39029 requirements and are rear release.

An optional ground spring reduces susceptibility to EMI problems. Fluorosilicone face seals and wire grommets prevent moisture and contamination. Panel mount versions are available with an O-ring, or for improved panel bonding, a metal spring.

Board mount versions include straight or right angle terminals. Right angle PCB connectors feature an aluminum cover for added EMI protection.

Hardware options include screwlocks, jackscrews or guide pins for blind mate applications.

M-17P17 with size 16 contacts

- Two to 102 contacts
- Coax, twinax, quadax and Ochito octaxial contacts
- Rugged aluminum shell with dual polarizing lobes

Shell size A – the smallest 791

- Integral band platform for direct attachment of cable braid
- -65 to +150°C
- Panel mount versions with O-ring or EMI spring

Integral backshell connector

- 37 contact arrangements
- Crimp-and-poke or epoxy-sealed board mount versions
- Scoop-proof recessed pins
- Size 23, 16, 12 and 8 contacts

- Straight and right angle printed circuit board mounting
- 12 shell sizes
- Guide pins for blind mate modules

- Contacts meet SAE AS39029 requirements
- Internal ground spring for EMI protection
- Approved for manned space flight

Contact Arrangements

Series 791 Contact Arrangements

Series 791 "Combo" Contact

Arrangements can be ordered two ways:

1. With a full set of contacts.
2. With #23 contacts but without #16, #12 or #8 contacts.

The Arrangement Number determines whether the size 16, 12 or 8 contacts are supplied. The first letter represents the shell size. The number following the shell size represents the total number of contacts. If the insert arrangement is a mixed layout with signal contacts and coaxial/power contacts, the letter "W" specifies the connector to be furnished with signal contacts only (size 16, 12 and 8 contacts purchased separately), and the letter "P" specifies the connector to be furnished with both signal and power contacts.

Series 791 Contact Arrangements

Series 791 Plating Options and RoHS Finishes

European Union Directive 2011/65/EU, with amendment 2015/83, on Restriction of the use of certain Hazardous Substances ("RoHS") states that certain types of equipment (primarily consumer electronic products such as personal computers) shall not contain lead, mercury, cadmium, hexavalent chromium, PBB, PBDE, DEHP, BBP, DBP, or DIBP.

The United States Department of Defense has issued a directive to minimize or eliminate the use of cadmium and hexavalent cadmium on DoD equipment. This directive has led to the adoption of nickel-PTFE and zinc-nickel shell platings as the preferred alternatives to traditional cadmium plating. Glenair has tested and approved these finishes for MIL-DTL-38999 and SAE AS85049.

The connectors in this catalog are available with three shell plating finishes: electroless nickel, nickel-PTFE and zinc-nickel. All three standard finishes are RoHS-compliant. Electroless nickel is the best choice for most applications. Nickel-PTFE has the conductivity of electroless nickel combined with superior corrosion resistance. Black zinc-nickel is a cadmium-free, corrosion-resistant finish typically used in tactical military equipment. Hermetic connectors feature stainless steel shells, passivated or nickel-plated. Please contact the factory to verify all components meet RoHS compliance regulations.

Table 1 lists the standard finishes in this catalog.

Table 2 lists additional shell plating options available on any Series 791 connector. To specify a Series 791 connector with one of these finishes, replace the catalog plating code with the alternate code shown below.

Table 1: RoHS-Compliant Standard Series 791 Shell Plating Options

Plating Code	Description	Salt Spray Hours	Application Notes
M	Electroless Nickel	48	Standard finish for Series 791 connectors. Suitable for space programs. <i>ASTM B733 Category SC2</i>
MT	Nickel-PTFE	500	Higher corrosion resistance compared to electroless nickel. <i>SAE AMS2454</i>
ZR	Black Zinc-Nickel	500	DoD-approved alternative to olive-drab cadmium. Less conductive than M or MT. <i>ASTM B841 Type D</i>
Z1	Stainless Steel Shell, Passivated	1000	Used on 791-044 hermetic connectors.
ZL	Stainless Steel Shell, Nickel Plated	1000	Used on 791-044 hermetic connectors. Higher conductivity than Z1. <i>SAE AMS-QQ-N-290</i>

Table 2: Alternate Series 791 Plating Options

Plating Code	Description	Salt Spray Hours	RoHS Compliance	Application Notes
Z2	Gold	48		Alternative to electroless nickel for space programs. <i>MIL-DTL-45204</i>
J	Yellow Chromate over Cadmium	500	No	Widely used legacy finish for D Subminiature and rack-and-panel connectors. <i>SAE AMS-QQ-P-416</i>
NF	Olive Drab Chromate over Cadmium	500	No	Standard mil spec circular connector finish. <i>SAE AMS-QQ-P-416</i>
C	Black Anodize	336		Non-conductive, not suitable for EMI-protected equipment. <i>MIL-A-8625</i>

Series 791 Connectors for Space Flight

Developed for the Orion spacecraft, the Series 791 connector is a high density, lightweight, high performance connector ideal for space flight applications. These connectors are available with NASA-grade screening and vacuum bakeout for high reliability space programs.

1. Find the right modification code in the table below.
2. Add the "Mod Code" to the connector part number.
Example: 791-003SH-66MP-**429C**

Is the Series 791 qualified and approved for space flight?

Yes. The connectors in this catalog are "good to go" for space flight. Zinc-nickel plated connectors should not be used for space applications. Electroless nickel is recommended.

Do Series 791 connectors meet outgassing requirements?

Connectors must be vacuum baked to guarantee compliance with outgassing limits established by NASA and military space programs. The requirements are 1.0 % Total Mass Loss (TML) and 0.1% Collected Volatile Condensable Material (CVCM). ASTM E595 defines the test procedure.

What is vacuum bakeout?

Connectors are placed in a special oven for 24 hours at +125°C and a vacuum of 10^{-6} Torr.

Are Series 791 connectors non-magnetic?

Series 791 connectors meet the 2.0μ magnetic permeability requirement of EIA-364-54. Additional residual magnetism screening is available on request.

Space Grade Modifications Codes			
Modification Code	NASA Screening Level		Vacuum Bakeout 24 hours +125°C
	Level 1 Highest Reliability	Level 2 High Reliability	
429		●	
429A		●	●
429B	●		
429C	●		●
186M			●

NASA Screening Requirements (EEE-INST-002 Table 2C)		
Inspection/Test	NASA Screening Level	
	Level 1 Highest Reliability	Level 2 High Reliability
Visual Inspection	100% 10X magnification	100% 10X magnification
Mechanical Inspection	2 connectors 10X magnification	2 connectors 10X magnification
DWV/IR	2 connectors	2 connectors
Contact Separation Force (Connectors with non-removable contacts)	2 connectors	Not required
Mating and Unmating Force	2 connectors	Not required
Hermeticity (hermetic connectors only)	100%	100%
Vacuum Bakeout (Optional, depends on Mod code)	100%	100%

Series 791 Keying Options

Plug connector with key at position A

Prevent Mis-Mating with Mod Code 555 Keying Option

Series 791 connectors are available with an optional polarizing key. Keyed plug connectors have a raised boss on the shell as shown in the photograph at left. Receptacles have corresponding keyway in shell. Six key positions are available. Ordering is simple— just add the keying position letter designator to the end of the part number.

Application Note: keyed receptacles will plug into unkeyed plugs.

Ordering Information

Step 1	Create a Series 791 Part Number	791-004SH-66MS
Step 2	Add key position letter designator	791-004SH-66MSA

Cable Connectors with Crimp-and-Poke Contacts

791-003S, 791-004S Plug Connectors with Socket Contacts

791-003S
With Backshell Groove

791-004S
With Integral Banding Platform

Harsh environment. Rugged construction. Ultraminiature. Series 791 connectors save size and weight compared to M24308 D Subminiature and other rack-and-panel connectors. Machined aluminum shell with polarizing lobes, snap-in crimp contacts, military grade materials, finishes and construction. Mating receptacles feature scoop-proof recessed pins for problem-free service.

RELIABLE DESIGN

- 100% scoop-proof
- Snap-in, rear release contacts
- EMI shell-to-shell continuity

VERSATILE

- Wide range of configurations
- Signal, power, RF, datalink
- Banding platform

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

Wire Accommodation

Contact Size	Wire Range AWG
23	22 – 28
16	16 – 20
12	12 – 14
8	8

How To Order

Sample Part Number	791-003S	H-66	M	P
Product	791-003S = Cable Plug, Socket Contacts, Backshell Groove 791-004S = Cable Plug, Socket Contacts, Integral Banding Platform			
Arrangement Number (Shell Size - Insert Arr.)	See Table 2			
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel			
Hardware Option (Table 1)	N = Thru-Hole (no hardware) S = Low Profile Screwlock, Hex Head T = Extended Screwlock, Slot Head L = Low Profile Jackscrew, Hex Head K = Extended Jackscrew, Slot Head P = Jackpost			

Specifications

- **Operating temperature:** -65 to +150°C
- **Current and voltage ratings:**

Contact Size	Amps, max.	DWV Vac rms
23	5	750
16	13	1800
12	23	1800
8	46	1800

- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for Series 79 Product Specifications (ref: 799-008)

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Socket contact hood:** stainless steel, passivated
- **Wire grommet:** fluorosilicone blend
- **Contact retention clip, insert retention clip:** beryllium copper
- **Hardware:** stainless steel, passivated

Cable Connectors with Crimp-and-Poke Contacts

791-003S, 791-004S Plug Connectors with Socket Contacts

Table 1 Hardware Option

Thread Sizes					
Hardware thread sizes vary by shell size. Shell sizes A, B, C, D, E, F, G, J, K have #4-40 UNC-2 thread, shell sizes H and L have #6-32 UNC-2 thread, shell size M has #8-32 UNC-2 thread.					
					
N No Hardware Mounting flange has thru-holes.	P Jackpost Supplied loosely assembled with nut and split washer. Stainless steel.	L Low Profile Jackscrew Non-removable, hex head. Stainless steel.	K Extended Jackscrew Slot head, stainless steel, non-removable.	S Low Profile Screwlock Hex head, stainless steel, non-removable. Screwlocks allow the connector to be mated before the screws are fastened.	T Extended Screwlocks Slot head, stainless steel, non-removable. Screwlocks allow the connector to be mated before the screws are fastened.

Table 2 Arrangement Number

Change the "P" to a "W" in any combo arrangement to delete power contacts. For example, arrangement **H-10P4** is supplied with a total of 10 contacts including (4) #12 power pins and (6) signal pins. Arrangement **H-10W4** is supplied with (6) signal pins and no power pins. Order coax contacts separately.

Arrangements with Size #23 Contacts	Arrangements with Size #16 Contacts	Arrangements with Size #12 Contacts

Panel Mount Connectors with Crimp-and-Poke Contacts

791-020S Panel Mount Plug Connectors with Socket Contacts

791-020S
Panel Mount Plug

RELIABLE DESIGN

- 100% scoop-proof
- Snap-in, rear release contacts
- EMI shell-to-shell continuity
- Blind mate capability

VERSATILE

- Wide range of configurations
- Signal, power, RF, datalink
- Rear panel mount

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

Blind mate. Scoop-proof. Ultraminiature. Series 791 connectors save size and weight compared to M24308 D Subminiature and other rack-and-panel connectors. Dual lobe shell for foolproof mating. Crimp, snap-in, rear release machined socket contacts. Environmentally protected with rubber wire grommet, face seal and O-ring. Aluminum shell, thermoplastic insulators and metal contact retention clips. Contacts are packaged with connector.

How To Order

Sample Part Number	791-020S	J-17P4	M	P	F
Product	791-020S = Panel Mount Plug, Crimp, with Socket Contacts				
Arrangement Number (Shell Size - Insert Arr.)	See Table 2				
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel				
Hardware Option (Table 1)	N = No hardware P = Jackpost G = Male guide pin B = Female guide bushing				
O-ring Option	N = No O-ring F = Fluorosilicone O-ring (non-conductive) C = Conductive fluorosilicone O-ring S = Metal EMI panel spring (non-environmental)				

Metal EMI Panel Spring

Gold-plated panel spring provides improved electrical bonding. Specify Code S.
Non-environmental.

791-020S Panel Mount Plug Connectors with Socket Contacts

Table 1 Hardware Option

 N No Hardware Connector supplied with threaded holes, .150 (3.8) minimum depth. Shell sizes A-G, J, K have 6-32 UNC-2B thread, sizes H and L have 8-32 UNC-2B thread. Size M has 10-32 UNF-2B thread.	 P Jackposts Non-removable female jackpost. Shell sizes A-G, J, K have 4-40 UNC-2B thread, sizes H and L have 6-32 UNC-2B thread. Size M has 8-32 UNC-2B thread. 300 series stainless steel, passivated.	 G Guide Pins Non-removable, 300 series stainless steel guide pins for blind mating applications. Use with guide bushing on mating connector.	 B Guide Bushing Non-removable, 300 series stainless steel female guide bushings for blind mating applications. Use with guide pin on mating connector.
---	---	---	--

Table 2 Arrangement Number

Change the "P" to a "W" in any combo arrangement to delete power contacts. For example, arrangement **H-10P4** is supplied with a total of 10 contacts including (4) #12 power pins and (6) signal pins. Arrangement **H-10W4** is supplied with (6) signal pins and no power pins. Order coax contacts separately.

Panel Mount Connectors with Crimp-and-Poke Contacts

791-019P Panel Mount Receptacle Connectors with Pin Contacts

791-019P
Panel Mount Receptacle

RELIABLE DESIGN

- 100% scoop-proof
- Snap-in, rear release contacts
- EMI shell-to-shell continuity
- Blind mate capability

VERSATILE

- Wide range of configurations
- Signal, power, RF, datalink
- Rear panel mount

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

Harsh environment. Rugged construction. Ultraminiature. Series 791 connectors save size and weight compared to M24308 D Subminiature and other rack-and-panel connectors. Crimp, snap-in, rear release machined pin contacts. Aluminum shell, thermoplastic insulators and metal contact retention clips. Contacts are packaged with connector. Scoop-proof recessed pins for problem-free service, optional ground spring for improved EMI performance.

How To Order

Sample Part Number	791-019P	F-23	MT	E	B	F
Product	791-019P = Panel Mount Receptacle, Crimp, Pin Contacts					
Arrangement Number (Shell Size - Insert Arr.)	See Table 2					
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel					
EMI Spring	E = EMI spring N = No EMI spring					
Hardware Option (Table 1)	N = No hardware P = Jackpost G = Male guide pin B = Female guide bushing					
O-ring Option	N = No O-ring F = Fluorosilicone O-ring (non-conductive) C = Conductive fluorosilicone O-ring S = Metal EMI panel spring (non-environmental)					

Metal EMI Panel Spring

Gold-plated panel spring provides improved electrical bonding. Specify Code S.
Non-environmental.

Wire Accommodation

Contact Size	Wire Range AWG
23	22 – 28
16	16 – 20
12	12 – 14
8	8

Specifications

- **Operating temperature:** -65 to +150°C
- **Current and voltage ratings:**

Contact Size	Amps, max.	DWV Vac rms
23	5	750
16	13	1800
12	23	1800
8	46	1800
- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for additional information

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Grommet and interfacial seal:** fluorosilicone blend
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Encapsulant:** epoxy
- **O-ring:** fluorosilicone
- **Hardware:** stainless steel, passivated
- **O-ring code F** fluorosilicone **code C** silver plated aluminum-filled fluorosilicone
- **Metal EMI panel spring (code S):** beryllium copper, gold plated

Panel Mount Connectors with Crimp-and-Poke Contacts

Printed Circuit Board Connectors

791-014S Plug Connectors with Straight Tail PCB Socket Contacts

791-014S
PCB Plug

Harsh environment. Rugged construction. Ultraminiature. Series 791 connectors are the next-generation higher density alternative to M24308 D Subminiature and other rack-and-panel connectors. Dual lobe shell, mating receptacle has recessed pins to prevent scooping damage. Epoxy-sealed terminals. Aluminum shell, thermoplastic insulator, gold-plated copper alloy contacts, stainless steel jackposts. Integral board standoffs, threaded board mount holes. 5A to 46A current rating depending on contact size.

RELIABLE DESIGN

- 100% scoop-proof
- Sealed PC tail contacts
- EMI shell-to-shell continuity

VERSATILE

- Wide range of configurations
- #23, #16, #12 and #8 contacts
- Rear panel mount

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

How To Order

Sample Part Number	791-014S	G-33	ME	P	B
Product	791-014S = Plug connector, straight PC tail				
Arrangement Number (Shell Size - Insert Arr.)	See Table 2				
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel				
Hardware Option (Table 1)	N = No jackpost P = Jackpost R1 = Rear panel jackpost, .032 (0.81) panel R2 = Rear panel jackpost, .050 (1.27) panel R3 = Rear panel jackpost, .062 (1.59) panel R4 = Rear panel jackpost, .080 (2.03) panel R5 = Rear panel jackpost, .093 (2.36) panel R6 = Rear panel jackpost, .125 (3.18) panel				
PC Tail Length	A = .125 inch (3.18) B = .250 inch (6.35) C = .375 inch (9.53)				

Specifications

- **Operating temperature:** -65 to +150°C
- **Current and voltage ratings:**

Contact Size	Amps, max.	DWV Vac rms
23	5	750
16	13	1800
12	23	1800
8	46	1800
- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for additional information

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Socket contact hood:** stainless steel, passivated
- **Encapsulant:** epoxy
- **Hardware:** stainless steel, passivated

Printed Circuit Board Connectors

791-014S Plug Connectors with Straight Tail PCB Socket Contacts

Table 1 Hardware Option

 N No Jackpost Connector supplied with threaded holes, .150 (3.8) minimum depth. Shell sizes A-G, J, K have 6-32 UNC-2B thread, sizes H and L have 8-32 UNC-2B thread. Size M has 10-32 UNF-2B thread.	 P Jackposts Non-removable female jackpost. Shell sizes A-G, J, K have 4-40 UNC-2B thread, sizes H and L have 6-32 UNC-2B thread. Size M has 8-32 UNC-2B thread. 300 series stainless steel, passivated.	 R1 – R6 Rear Panel Jackposts For rear panel mounting of connector onto .032 - .125 inch (0.81 - 3.18) thick panels. Install with Loctite #272 threadlocking compound. Shell sizes A-G, J, K have 4-40 UNC-2B thread, sizes H and L have 6-32 UNC-2B thread. Size M has 8-32 UNC-2B thread. 300 series stainless steel, passivated. Supplied loosely assembled.

- High density

How To Order

Sample Part Number	791-016S	L-6P6	MT	R3	A
Product	791-016S = Plug connector, right angle PC tail				
Arrangement Number (Shell Size - Insert Arr.)	See Table 2				
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel				
Hardware Option (Table 1)	N = No jackpost P = Jackpost R1 = Rear panel jackpost, .032 (0.81) panel R2 = Rear panel jackpost, .050 (1.27) panel R3 = Rear panel jackpost, .062 (1.59) panel R4 = Rear panel jackpost, .080 (2.03) panel R5 = Rear panel jackpost, .093 (2.36) panel R6 = Rear panel jackpost, .125 (3.18) panel				
PC Tail Length	A = .125 inch (3.18) B = .250 inch (6.35) C = .375 inch (9.53)				

Specifications

- **Operating temperature:** -65 to +150°C
- **Current and voltage ratings:**

Contact Size	Amps, max.	DWV Vac rms
23	5	750
16	13	1800
12	23	1800
8	46	1800
- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for additional information

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Socket contact hood:** stainless steel, passivated
- **Encapsulant:** epoxy
- **EMI cover:** aluminum, same finish as connector shell
- **Hardware:** stainless steel, passivated

Printed Circuit Board Connectors

791-016S Plug Connectors with Right Angle PCB Socket Contacts

Table 1 Hardware Option

 N No Jackpost Connector supplied with threaded holes, .150 (3.8) minimum depth. Shell sizes A-G, J, K have 6-32 UNC-2B thread, sizes H and L have 8-32 UNC-2B thread. Size M has 10-32 UNF-2B thread.	 P Jackposts Non-removable female jackpost. Shell sizes A-G, J, K have 4-40 UNC-2B thread, sizes H and L have 6-32 UNC-2B thread. Size M has 8-32 UNC-2B thread. 300 series stainless steel, passivated.	 R1 – R6 Rear Panel Jackposts For rear panel mounting of connector onto .032 - .125 inch (0.81 - 3.18) thick panels. Install with Loctite #272 threadlocking compound. Shell sizes A-G, J, K have 4-40 UNC-2B thread, sizes H and L have 6-32 UNC-2B thread. Size M has 8-32 UNC-2B thread. 300 series stainless steel, passivated. Supplied loosely assembled.

Printed Circuit Board Connectors

791-032P Receptacle Connectors with Right Angle PCB Pin Contacts

791-032P
PCB Receptacle

Harsh environment. Rugged construction. Ultraminiature. Series 791 connectors are the next-generation higher density alternative to M24308 D Subminiature and other rack-and-panel connectors. Dual lobe shell, recessed pins to prevent scooping damage. Epoxy-sealed terminals. Aluminum shell, thermoplastic insulator, gold-plated copper alloy contacts, stainless steel jackposts. Integral board standoffs, threaded board mount holes. 5A to 46A current rating depending on contact size.

RELIABLE DESIGN

- 100% scoop-proof
- Sealed PC tail contacts
- EMI cover

VERSATILE

- Wide range of configurations
- #23, #16, #12 and #8 contacts
- Rear panel mount

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

How To Order

Sample Part Number	791-032P	H-66	M	N	P	B
Product	791-032P = Receptacle connector, right angle PC tail, pin contacts					
Arrangement Number (Shell Size - Insert Arr.)	See Table 2					
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel					
EMI Spring	E = EMI spring N = No EMI spring

Panel Mount Printed Circuit Board Connectors

791-033S Panel Mount Plug Connectors with Straight PCB Socket Contacts

791-033S
Panel Mount PCB Plug

RELIABLE DESIGN

- 100% scoop-proof
- Machined aluminum shell
- Sealed PC tail contacts
- EMI shell-to-shell continuity
- Blind mate capability

VERSATILE

- Wide range of configurations
- Signal, power
- Rear panel mount

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

Harsh environment. Rugged construction. Ultraminiature. Series 791 connectors are the next-generation higher density alternative to M24308 D Subminiature and other rack-and-panel connectors. Dual lobe shell, mating receptacle has recessed pins to prevent scooping damage. Epoxy-sealed terminals. Aluminum shell, thermoplastic insulator, gold-plated copper alloy contacts, Integral board standoffs, threaded board mount holes. 5A to 46A current rating depending on contact size.

How To Order

Sample Part Number	791-033S	M-102	MT	N	F	C
Product	Panel mount plug connector, straight PC tail, socket contacts					
Arrangement Number (Shell Size - Insert Arr.)	See Table 2					
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel					
Hardware Option (Table 1)	N = No hardware P = Jackpost G = Male guide pin B = Female guide bushing					
O-ring Option	N = No O-ring F = Fluorosilicone O-ring (non-conductive) C = Conductive fluorosilicone O-ring S = Metal EMI panel spring (non-environmental)					
PC Tail Length	A = .125 inch (3.18) B = .250 inch (6.35) C = .375 inch (9.53)					

Metal EMI Panel Spring

A gold-plated panel spring option is available for Series 791 connectors with panel mount flanges. This spring provides improved electrical bonding. Specify Code S. Non-environmental.

- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for additional information

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Encapsulant:** epoxy
- **O-ring:** fluorosilicone
- **Hardware:** stainless steel, passivated
- **O-ring (code F):** fluorosilicone
- **Conductive O-ring (code C):** silver plated, aluminum-filled fluorosilicone
- **Metal EMI panel spring (code S):** beryllium copper, gold plated

Panel Mount Printed Circuit Board Connectors

791-033S Panel Mount Plug Connectors with Straight PCB Socket Contacts

Table 1 Hardware Option

 N No Hardware Connector supplied with threaded holes, .150 (3.8) minimum depth. Shell sizes A-G, J, K have 6-32 UNC-2B thread, sizes H and L have 8-32 UNC-2B thread. Size M has 10-32 UNF-2B thread.	 P Jackposts Non-removable female jackpost. Shell sizes A-G, J, K have 4-40 UNC-2B thread, sizes H and L have 6-32 UNC-2B thread. Size M has 8-32 UNC-2B thread. 300 series stainless steel, passivated.	 G Guide Pins Non-removable, 300 series stainless steel guide pins for blind mating applications. Use with guide bushing on mating connector.	 B Guide Bushing Non-removable, 300 series stainless steel female guide bushings for blind mating applications. Use with guide pin on mating connector.

791-021P

Panel Mount PCB Receptacle

RELIABLE DESIGN

- 100% scoop-proof
- Machined aluminum shell
- Sealed PC tail contacts
- EMI shell-to-shell continuity
- Blind mate capability

VERSATILE

- Wide range of configurations
- Signal, power
- Rear panel mount

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

Harsh environment. Rugged construction. Ultraminiature. Series 791 connectors are the next-generation higher density alternative to M24308 D Subminiature and other rack-and-panel connectors. Dual lobe shell with recessed pin contacts to prevent scooping damage. Epoxy-sealed terminals. Aluminum shell, thermoplastic insulator, gold-plated copper alloy contacts, Integral board standoffs, threaded board mount holes.

How To Order

Sample Part Number	791-021P	J-25P2	M	E	P	F	A
Product	791-021P Panel mount receptacle, straight PC tail, pin contacts						
Arrangement Number (Shell Size - Insert Arr.)	<i>See Table 2</i>						
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel						
EMI Spring	E = EMI spring N = No EMI spring						
Hardware Option (Table 1)	N = No hardware P = Jackpost G = Male guide pin B = Female guide bushing						
O-ring Option	N = No O-ring F = Fluorosilicone O-ring (non-conductive) C = Conductive fluorosilicone O-ring S = Metal EMI panel spring (non-environmental)						
PC Tail Length	A = .125 inch (3.18) B = .250 inch (6.35) C = .375 inch (9.53)						

Metal EMI Panel Spring

A gold-plated panel spring option is available for Series 791 connectors with panel mount flanges. This spring provides improved electrical bonding. Specify Code S. Non-environmental.

Specifications

- **Operating temperature:** -65 to +150°C
- **Current and voltage ratings:**

Contact Size	Amps, max.	DWV Vac rms
23	5	750
16	13	1800
12	23	1800
8	46	1800
- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for additional information

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Encapsulant:** epoxy
- **Interfacial seal:** fluorosilicone
- **EMI spring:** beryllium copper, nickel plated
- **Hardware:** stainless steel, passivated
- **O-ring (code F):** fluorosilicone
- **Conductive O-ring (code C):** silver plated, aluminum-filled fluorosilicone
- **Metal EMI panel spring (code S):** beryllium copper, gold plated

Metal EMI Panel Spring

A gold-plated panel spring option is available for Series 791 connectors with panel mount flanges. This spring provides improved electrical bonding. Specify Code S. Non-environmental.

Specifications

- **Operating temperature:** -65 to +150°C
- **Current and voltage ratings:**

Contact Size	Amps, max.	DWV Vac rms
23	5	750
16	13	1800
12	23	1800
8	46	1800
- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for additional information

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Encapsulant:** epoxy
- **O-ring:** fluorosilicone
- **EMI cover:** aluminum, same finish as shell
- **Hardware:** stainless steel, passivated
- **O-ring (code F):** fluorosilicone
- **Conductive O-ring (code C):** silver plated, aluminum-filled fluorosilicone
- **Metal EMI panel spring (code S):** beryllium copper, gold plated

Panel Mount Printed Circuit Board Connectors

791-012S Panel Mount Plug Connectors with Right Angle PCB Socket Contacts

Table 1 Hardware Option

 N No Hardware Connector supplied with threaded holes, .150 (3.8) minimum depth. Shell sizes A-G, J, K have 6-32 UNC-2B thread, sizes H and L have 8-32 UNC-2B thread. Size M has 10-32 UNF-2B thread.	 P Jackposts Non-removable female jackpost. Shell sizes A-G, J, K have 4-40 UNC-2B thread, sizes H and L have 6-32 UNC-2B thread. Size M has 8-32 UNC-2B thread. 300 series stainless steel, passivated.	 G Guide Pins Non-removable, 300 series stainless steel guide pins for blind mating applications. Use with guide bushing on mating connector.	 B Guide Bushing Non-removable, 300 series stainless steel female guide bushings for blind mating applications. Use with guide pin on mating connector.

Float Mount Connectors

791-018S Float Mount Plug Connectors with Crimp-and-Poke Socket Contacts

791-018S
Float Mount Plug

RELIABLE DESIGN

- 100% scoop-proof
- Snap-in, rear release contacts
- EMI shell-to-shell continuity

VERSATILE

- Wide range of configurations
- Signal, power, RF, datalink
- Blind mate

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

Harsh environment. Rugged construction. Ultraminiature.

Series 791 connectors are the next-generation higher density alternative to M24308 D Subminiature and other rack-and-panel connectors. Float bushings and guide pins for blind mate applications. Dual lobe shell, mating receptacle has recessed pins to prevent scooping damage. Aluminum shell, thermoplastic insulator, gold-plated copper alloy contacts. 5A to 46A current rating depending on contact size.

Construction

- **Shell:** aluminum alloy
- **Insulators:** high grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Socket contact hood:** stainless steel, passivated
- **Wire grommet:** fluorosilicone blend
- **Contact retention clip, insert retention clip:** beryllium copper
- **Hardware:** stainless steel, passivated

Float Mount Connectors

791-018S Float Mount Plug Connectors with Crimp-and-Poke Socket Contacts

Table 1 Hardware Option

 N No Hardware Connector supplied with threaded holes, .150 (3.8) minimum depth. Shell sizes A-G, J, K have 6-32 UNC-2B thread, sizes H and L have 8-32 UNC-2B thread. Size M has 10-32 UNF-2B thread.	 G Guide Pins Guide pins for blind mating applications. Use with guide bushing on mating connector. 300 series stainless steel, non-removable.	 B Guide Bushing Female guide bushings for blind mating applications. Use with guide pin on mating connector. 300 series stainless steel, non-removable.
---	---	---

Table 2 Arrangement Number

Change the "P" to a "W" in any combo arrangement to delete power contacts. For example, arrangement **H-10P4** is supplied with a total of 10 contacts including (4) #12 power pins and (6) signal pins. Arrangement **H-10W4** is supplied with (6) signal pins and no power pins. Order coax contacts separately.

Arrangements with Size #23 Contacts	Arrangements with Size #16 Contacts	Arrangements with Size #12 Contacts

Float Mount Connectors

791-017P Float Mount Receptacle Connectors with Crimp-and-Poke Pin Contacts

791-017P
Float Mount Receptacle

RELIABLE DESIGN

- 100% scoop-proof
- Snap-in, rear release contacts
- EMI shell-to-shell continuity

VERSATILE

- Wide range of configurations
- Signal, power, RF, datalink
- Blind mate

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

Harsh environment. Rugged construction. Ultraminiature.

Series 791 connectors are the next-generation higher density alternative to M24308 D Subminiature and other rack-and-panel connectors. Dual lobe shell, recessed pins to prevent scooping damage. Aluminum shell, thermoplastic insulator, gold-plated copper alloy contacts. Float bushings for blind mating. 5A to 46A current rating depending on contact size.

How To Order

Sample Part Number	791-017P	H-10W4	M	E	B
Product	791-017P Float mount receptacle, pin contacts, crimp type				
Arrangement Number (Shell Size - Insert Arr.)	See Table 2				
Shell Finish	M = Electroless Nickel MT = Nickel-PTFE ZR = Black Zinc-Nickel				
EMI Spring	E = EMI spring N = No EMI spring				
Hardware Option (Table 1)	N = No hardware) G = Male guide pin B = Female guide bushing				

Wire Accommodation

Contact Size	Wire Range AWG
23	22 – 28
16	16 – 20
12	12 – 14
8	8

Specifications

- Operating temperature: -65 to +150°C
- Current and voltage ratings:

Contact Size	Amps, max.	DWV Vac rms
23	5	750
16	13	1800
12	23	1800
8	46	1800
- Shock: EIA-364-27 condition D
- Vibration: EIA-364-28 condition V, letter E
- See pages 8-10 for Series 79 Product Specifications (ref: 799-008)

Construction

- Shell: aluminum alloy
- Insulators: high grade rigid dielectric
- Contacts: copper alloy, 50 microinches gold over nickel plating
- Socket contact hood: stainless steel, passivated
- Wire grommet: fluorosilicone blend
- Interfacial seal: fluorosilicone blend
- EMI spring: beryllium copper, nickel plated
- Contact retention clip, insert retention clip: beryllium copper
- Hardware: stainless steel, passivated

Hermetic Receptacle Connectors

791-044P Hermetic Receptacle Connectors with Solder Cup or PC Tail Contacts

791-044P
Hermetic Receptacle

Glass-to-metal seal. Solder cup or PC tail. Blind Mate. Series 791 hermetic connectors are the next-generation higher density alternative to M24308 D Subminiature connectors. Dual lobe shell with recessed pin contacts to prevent scooping damage. 1×10^{-7} cc/sec helium leak rate. Stainless steel shell, fused vitreous dielectric insert, gold-plated nickel-iron alloy contacts, fluorosilicone interfacial seal.

RELIABLE DESIGN

- Glass-to-metal seal
- 100% scoop-proof
- Stainless steel shell

VERSATILE

- Wide range of configurations
- Signal, power
- Blind mate

HARSH ENVIRONMENT

- Humidity, water ingress
- Shock and vibration
- Temperature extremes
- Corrosion resistance
- High altitude

SIZE AND WEIGHT SAVING

- High density

How To Order

Sample Part Number →	791-044P	Z1	H-29P7	P	P
Product	791-044P Panel mount hermetic receptacle connector				
Shell Finish	Z1 = Passivated SST ZL = Nickel-plated SST				
Arrangement Number (Shell Size- Insert Arr.)	See Table 2				
Contact Type	C = Pin Contacts, PC tail P = Pin Contacts, Solder Cup				
Hardware Option (Table 1)	N = No hardware P = Jackpost G = Male guide pin S = Female guide bushing				

Specifications

- **Hermeticity:** 10^{-5} cm³/s helium leak rate at 1ATM pressure differential
- **Operating temperature:** -65 to +150°C
- **Dielectric withstanding voltage**
Size #23 contacts: 500 Vac rms
#12, #16, #8: 1800 Vac rms
- **Current rating:**
Size 23 contacts: 3A
Size 16 contacts: 10A
Size 12 contacts: 17A
- **Shock:** EIA-364-27 condition D
- **Vibration:** EIA-364-28 condition V, letter E
- See pages 8-10 for additional specifications

Construction

- **Shell:** 300 series stainless steel
- **Insulator:** vitreous glass
- **Contacts:** nickel-iron alloy, 50 microinches gold over nickel plating
- **Hardware:** stainless steel, passivated
- **O-ring:** fluorosilicone

J	70-120	35-60

* Filter classes X, Y and Z are 250 VDC. All others are 500 VDC.

† Class X filters not available for arrangements with 3 or more rows of contacts.

Construction

- **Shell:** aluminum alloy
- **Insulators:** High grade rigid dielectric
- **Contacts:** copper alloy, 50 microinches gold over nickel plating
- **Hardware:** 300 series stainless steel, passivated

C or Pi filters. Multi-layer planar capacitor array. Series 791 filter connectors are the next-generation higher density alternative to M24308 D Subminiature connectors. Available in 36 arrangements, 791 filter connectors feature aluminum shells, gold-plated non-removable solder cup contacts, and a shell groove for attachment of EMI shielding adapters.

How To Order

Pin and Socket Contacts for Series 79 Connectors

Crimp Contacts

Size 23 Crimp Contacts

Technical Data

Specifications

- Operating temperature: -65 to +150°C
- Current rating: 5A
- Crimp Tensile Strength

Wire Size	Axial Load (lbs.)
22	12
24	8
26	5
28	3
30	1.5

- Voltage Drop: 73 millivolts maximum, 5A, 25° C, 22 AWG wire

Construction

- Contact body: copper alloy
- Socket hood: stainless steel, passivated
- Contact finish: 50 microinches minimum gold plating over nickel underplate

Size 23 contacts are designed to meet SAE AS39029 requirements. These snap-in, rear release contacts are compatible with Series 790 and 791 connectors.

Coaxial Contacts for Series 79 Connectors

Size #12 SMPM-Type Spring-Loaded Contacts for DC – 40 GHz

50 ohm high frequency size #12 coaxial contacts fit Glenair Series 79 connectors. Maximum operating frequency 40 GHz. Spring-loaded male contact assures consistent mating dimensions and superior performance. Supplied fully assembled with cable termination instruction sheet.

- DC – 40 GHz frequency range
- 50 ohm impedance
- Aerospace-grade construction
- SMPM-type Interface per MIL-DTL-348
- Spring-loaded interface
- Low insertion loss
- Solderless center contact
- VSWR 1.3 at 40 GHz

Size 12 50 Ohm SMPM-Type Coaxial Contacts for DC – 40 GHz

Cable	Female Contact (Use in Pin Connectors)	Male Contact (Use in Socket Connectors)
RG-405 Flex (Times Microwave TFlex-405) Tensolite LLF-1087)	852-025-01	852-032-01

Technical Data

Specifications

- Operating temperature: -55°C to +125°C
- Dielectric withstanding voltage: 500 Vac
- Ins. resistance: 5000 megohms min.
- Frequency range: DC – 40 GHz
- VSWR: 1.10 + (.005 x Freq GHz)
- Impedance: 50 ohm
- Insertion loss: .04 x $\sqrt{\text{Freq in GHz}}$
- RF leakage: -(90 – Freq GHz)
- Durability: 500 mating cycles

Construction

- Center contact: copper alloy, 50 microinches gold over nickel plating
- Dielectric: PTFE per ASTM D-1710
- Female body: copper alloy, 50 microinches gold over nickel plating
- Male body: stainless steel, passivated
- Male contact spring: high carbon steel (music wire), nickel plated

Male Contact 852-032-01

Female Contact 852-025-01

Cable Prep Dimensions for 852-025

Slide prepped cable into contact, then solder cable braid to contact body. See Assembly Instruction Sheet AI85009 for complete termination instructions.

Cable Prep Dimensions for 852-032

Slide prepped cable into contact, then solder cable braid to contact body. See Assembly Instruction Sheet AI85010 for complete termination instructions.

Datalink Contacts for Series 791 Connectors

Size #8 Differential Twinax Contacts

Differential twinax contacts accept 100 ohm shielded twisted pair cable. These snap-in, rear-release contacts fit Glenair Series 79 connectors. Crimp termination. 24 and 26 AWG versions. Gold-plated copper alloy. Supplied unassembled with sealing boot and instruction sheet.

- Dielectric withstanding voltage, inner contact to inner contact: 1000 Vrms
- Dielectric withstanding voltage, inner contact to outer body: 500 Vrms
- Insulation resistance: 5000 megohms min.
- Contact resistance, inner contacts: 55 millivolt max. voltage drop @ 1 ampere
- Contact resistance, outer body: 75 millivolt max. voltage drop @ 12A
- Durability: 500 mating cycles

Construction

- Inner contacts, outer body: copper alloy, 50 microinches gold over nickel plating
- Crimp ferrule: copper alloy, 50 microinches gold over nickel plating
- Insulators: PPS
- Sealing boot: fluorosilicone rubber grommet, glass-filled PEI follower

Pin Contact 853-014

Socket Contact 853-026

Sealing Boot

Sealing boots are supplied with contacts. To order contacts without sealing boots, delete the "F" suffix from the part number

Datalink Contacts for Series 791 Connectors

Size #8 Quadrax Contacts

Quadrax contacts are size 8 multi-pin contacts with four signal pins and an outer contact body. Crimp termination. Compatible with Glenair Series 79 connectors. Supplied as unassembled kit.

Size #8 100 Ohm Quadrax Contacts

Datalink Contacts for Series 791 Connectors

Size #8 El Ochito® Octaxial Contacts

El Ochito®

The 10G Ethernet
Contact with Patented
Data Pair Isolator
Technology

**United States Patent Number
9,257,796**

- DC – 4 GHz frequency range
- 100 ohms
- Data pair isolation technology
- 50% size and weight savings compared to quadrax contacts

Pin Contact

Socket Contact

El Ochito® contacts are intended for harsh environment military and aerospace data networks utilizing 1000BASE-T or 10GBASE-T protocols. El Ochito® contacts provide up to 50% total weight savings compared to quadrax-based solutions. These contacts have eight signal pins housed in a machined, gold plated outer contact. Crimp termination. Metal spline isolates data pairs for improved signal integrity. For use with aerospace-grade 26 AWG Category 6a cables with unshielded or shielded data pairs. El Ochito® contacts snap into Series 791 connectors. Supplied as unassembled kit with outer body, (8) inner contacts, shield crimp ferrule, insulators, and instruction sheet.

Technical Data

Specifications

- Operating temperature: -65 to +175°C
- Operating frequency: DC – 4 GHz
- Nominal Impedance: 100 ohms
- Dielectric withstanding voltage, inner to inner contact: 1000 Vrms sea level, 250 Vrms 70,000 feet.
- Dielectric withstanding voltage, inner to outer contact: 500 Vrms sea level, 250 Vrms 70,000 feet.
- Insulation resistance: 5000 megohms min.
- Durability: 500 mating cycles
- Vibration: MIL-DTL-38999 Series III
- Shock: MIL-DTL-38999 Series III

Construction

- Inner contacts, outer body: copper alloy, 50 microinches gold over nickel plating
- Crimp ferrule: copper alloy, 50 microinches gold over nickel plating
- Insulators: thermoplastic
- Sealing boot: fluorosilicone rubber grommet, glass-filled PEI follower

Pneumatic Contacts for Series 790 and 791 Connectors

Size #12 Pneumatic Contacts

Technical Data

Specifications

- Operating temperature: -65 to +200°C
- Maximum static air pressure 100 psi (6.8 bar)

Construction

- **Body:** stainless steel, passivated
- **O-ring:** fluorosilicone
- **Washers:** PTFE

Stainless steel pneumatic contacts attach to 3/32 inch (2.38) diameter tubing. Compatible with all Series 79 and Series 80 Mighty Mouse connectors. Socket contact has o-ring and PTFE backup washers. Contacts snap into size #12 connector cavities. Originally designed for pitot tube connections, these pneumatic contacts are rated for 100 PSI maximum air pressure. No installation tool is required. Remove contacts with plastic extraction tool 809-132.

- 100 psi
- Stainless steel
- Accepts 3/32 in. diameter tube
- Fits in standard #12 contact cavity

Backshells for Series 791 Connectors

799-015 EMI Banding Backshell for 791-001 and 791-003 Connectors

Low profile. Two piece. EMI protection. Band-Master shield termination.

Attach cable braid to connector with 799-015 adapters. These adapters fit securely into a groove on 791-001 and 791-003 cable connectors. Elliptical cable entry provides room for large wire bundles. Machined T6061 aluminum adapters consist of two interlocking housings, two fillister head screws and two lockwashers. These lightweight, space-saving adapters are available in straight or right angle configurations with a range of cable entry sizes.

Anti-Static Dust Caps for Series 791 Connectors

799-064 and 799-065 Dust Caps

Permanently anti-static. Non-sloughing. ESD Protection.

Black plastic dust caps fit Series 791 connectors. Molded from permanently anti-static LDPE, these caps protect connectors from contamination and static discharge. Friction fit.

Technical Data	
Specifications	Construction
- Volume resistivity: 1E9 - 9.9E10 ohm.cm (ASTM D 256) - Surface resistivity: 1E10 - 9.9E11 ohm/sq (ASTM D 257) - Static decay: <2.0 seconds (MIL-PRF-81705, 5kV to 50 V, 12% RH)	- Material: low density polyethylene (LDPE) - Part marking: molded-in raised lettering

Table 1 Attachment Lanyards

Nylon Rope (G)

-55° to +100°C, black, very flexible, very good abrasion resistance, good resistance to fuels, .120" (3mm) diameter

Teflon® Jacketed Wire Rope (H)

Translucent FEP jacket over stainless steel, -55° to +200°C, fair flexibility, good abrasion resistance, .100" diameter

Polyurethane Coated Wire Rope (U)

Black polyurethane over stainless steel rope, -55° to +125°C, very flexible, excellent abrasion resistance, excellent resistance to fuels, .080" (2mm) diameter

Slip Knot (SK)

55° to +100°C, black, very flexible, very good abrasion resistance, good resistance to fuels, .120" (3mm) diameter. Length includes .5" (13mm) diameter loop.

HIGH-SPEED

Series 792

The Next-Generation Ultraminiature Rectangular Connector for High Speed Aerospace Applications

The Series 792 connector brings high speed data capability to the Glenair Series 79 rectangular connector family. Size 8 cavities accept standard quadrx and El Ochito datalink contacts. The 792's small size and blind mate capability makes it a perfect choice for radars, weapons systems, communications gear, satellites, exoatmospheric vehicles, avionics, and instrumentation. Board mount versions feature straight and right angle terminals.

The Series 792 is an aerospace-grade ultraminiature rectangular connector for high speed datalinks. The Series 792 features machined aluminum alloy shells with dual lobes for polarization. The 100% scoop-proof interface protects contacts from damage. An optional ground spring reduces susceptibility to EMI problems. Board mount versions include straight or right angle terminals.

- Ethernet, USB 3.0, HDMI
- Printed circuit board and cable
- Scoop-proof interface
- 12 arrangements, 6 shell sizes for the ultimate in versatility
- Rugged aluminum alloy dual lobe shell
- Environmental
- EMI protection
- Blind mating
