## **ZNCL11 PIR Lens Product Specification**

PS041401-0222

**Warning: DO NOT USE IN LIFE SUPPORT**

### **LIFE SUPPORT POLICY**

ZILOG'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS PRIOR WRITTEN APPROVAL OF THE PRESIDENT AND GENERAL COUNSEL OF ZILOG CORPORATION.

### **As used herein**

Life support devices or systems are devices which (a) are intended for surgical implant into the body, or (b) support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in a significant injury to the user. A critical component is any component in a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system or to affect its safety or effectiveness.

## Overview

Zilog's Passive Infrared (PIR) lenses are designed to deliver high performance for the most demanding motion detection applications. Each lens is manufactured from high density polyethylene ensuring maximum IR transmissivity with well-defined beam patterns.

The ZNCL11 lens clips directly into the circuit board (PCB) over a TO-5 package PIR sensor, greatly simplifying the mechanical design.

Available in black color, the lens works with dual element PIR sensors and provides 32 detection zones ideal for room occupancy detection and appliance/HVAC power management. It is also suitable as a presence detector for keypad backlights.

## Features

- High density polyethylene construction
- Black color to blend with product design
- Simple mounting – clips directly into PCB over TO-5 package PIR sensor

## Applications

- Room occupancy sensing
- Appliance and HVAC power control
- Keypad presence detection

## Ordering Information

Part Number	Features	Typical Applications
<b>ZNCL11</b>	Wall/Ceiling Mount Array 104° (X), 37° (Y) detection area 32 detection zones 4m range Recommended PIR Sensor: Dual Element	<b>Room Occupancy and Proximity Sensing</b> Room occupancy sensing Appliance and HVAC control Keypad/display presence detection Product display's

## Len Material

High Density Polyethylene (HDPE)

## Lens Color

ZNC11 – Black

## Environmental Characteristics

- 1) Operating temperature: -20°C to +70°C
- 2) Storage temperature: -25°C to +75°C

## Mechanical Dimensions

The figure below **Error! Reference source not found.** shows the mechanical dimensions for the ZNCL11 lens. All dimensions are in mm.

Figure 2 - ZNCL11 Dimensions

## Beam Patterns

ZNCL11 beam patterns are shown in the following figure using dual and quad element PIR sensors. All dimensions are in meters.
