

SOLDERING STATION 60W

Weight 1600 g

DESCRIPTION

Soldering station SS-936A is a more serious part of equipment for electronic workshop. It contains a transformer in its base, thanks to which it can deliver high power at high speed. Therefore, you will easily solder the thickest wires and components to ground polygons. Power is up to 60W, adjustable temperatures up to 500 °C with a quality soldering iron that heats up quickly. It comes with spike tip, a soldering iron stand and a sponge for cleaning the tip of the soldering iron. If you are looking for a soldering iron that will serve you for a long time, without spending too much money, the SS-936A is an ideal choice!

FEATURES

- Power: 60W
- Temperature range: 200°C - 500°C
- Input voltage: 230V
- Dimensions: 138 x 112 x 82 mm / 5.4" x 4.4" x 3.2"
