

## MICROSWITCH KW12-3

**Weight** 5 g

---

### DESCRIPTION

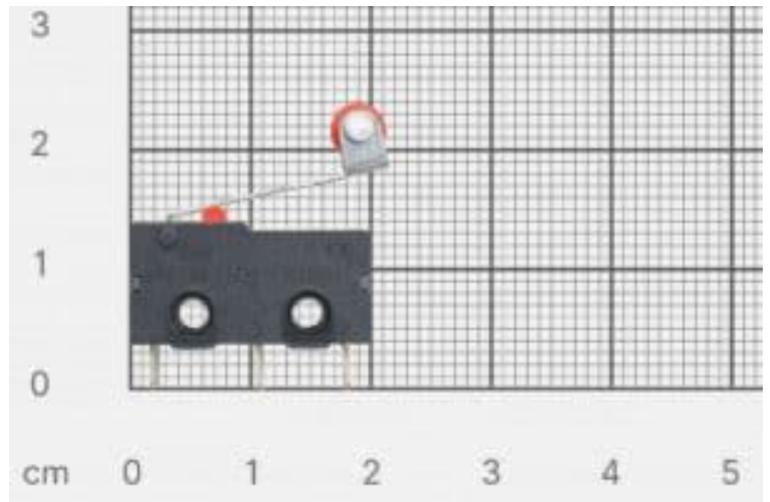

KW12-3 is a standard microswitch - it's activated by the external force on the lever. Releasing the force we deactivate it. This system is very quick and practical, it allows dynamic changes in the switch. The lever itself is able to rotate - it has a little wheel on the top. Microswitches like these are used in PC mice, automobile industry, communication devices, microwave oven doors etc.

### FEATURES

- Switch type: N/O // N/C switch
- Max. current: 5A
- Dimensions: 20 x 10 x 6 mm / 0.8" x 0.4" x 0.2"
