

SMD TWEEZERS ESD-12

Weight 21 g

DESCRIPTION

To pick up ultra-small components and put them in the right place you simply have to own a right tool. One such are the tweezers for SMD components which will enable you to handle 0603 components. With little more exercise even smaller ones, won't be an issue. Of course, the tweezers are ESD safe so you shouldn't worry that something will happen to your components.
