

KAPTON TAPE 20MM WIDTH, 10M

Weight 43 g

DESCRIPTION

Kapton is a special type of material that is resistant to high temperatures and does not conduct electricity. When it is thinly rolled out and adhesive tape is placed on it, we get a kapton tape. In electronics, it is often used to protect plastic components from damage during soldering and as an insulator.

FEATURES

- Tape width: 20 mm / 0.79"
- Tape length: 10 m / 393.7"
