

Technical drawing of a square plate with a circular pattern of six curved segments. The drawing includes a dimension line at the top indicating a width of 122mm, with the equivalent in inches, [4.803in], shown above it. The plate has rounded corners and contains a circular design composed of six curved segments arranged in a hexagonal pattern.

Technical drawing of a circular mechanical part. The drawing shows a circular component with a complex internal pattern of intersecting curved lines. Four mounting holes are indicated by circles with a crosshair symbol, located at the corners of a square frame. Dimensions are provided for the overall width and the distance between the mounting holes.

Dimensions:

- Overall width: 4.618 in (117.300 mm)
- Distance between mounting holes: 4.130 in (104.900 mm)

A reference point 'A' is marked at the bottom right corner of the mounting hole pattern.

Technical drawing of a vertical profile. The top dimension is $[0.402\text{in}]$ and 10.200mm . The profile is divided into three sections labeled 1, 2, and 3.

Technical drawing of a stepped profile. The drawing shows a horizontal line with a vertical step down on the left and a vertical step up on the right. The vertical distance from the top line to the bottom line is dimensioned as $[0.402\text{in}]$ and 10.200mm .

[0.130in]
3.302mm

Technical drawing of a mechanical part with dimensions in inches and millimeters. The drawing shows a cross-section of a part with a 65° angle. The dimensions are as follows:

- Top horizontal dimension: 0.177in [7.100mm]
- Left vertical dimension: 0.450mm [0.0177in]
- Right vertical dimension: 0.280in [7.100mm]
- Bottom horizontal dimension: 0.390in [9.900mm]

9.900mm
[0.390in]
