#### Product Uses

## Performance Properties

## **Handling and Application Information**

### **Directions for Use**

1. Turn spray tip so opening points to dot on rim of can.
2. Hold can upright and push actuator on top of can all the way down to apply a uniform spray.
3. If using the extension tube, insert it into the actuator using a twisting motion.
4. Best results are obtained when material is at room temperature. Higher temperatures increase the pressure in the can, and lower temperatures reduce the pressure.
5. Hold can 8" to 10" from surface to be sprayed. Apply evenly and use sparingly.
6. For hard to reach or small surfaces, use the extension tube.
7. On leather and vinyl, apply and wipe with a cloth.

### **Applications**

- Lubrication of plastic dash parts
- Door weather strips
- Window channel lubrication
- Lubricate door locks
