## Solus<sup>™</sup> CCS Series

#### Description

The 3M<sup>™</sup> Solus<sup>™</sup> CCS Series eyewear includes the Corded Control System (CCS) temples. The versatile design helps keep eyewear and earplugs attached, untangled and ready to use, so your team has the convenient, comfortable protection they need to focus on the jobs at hand. All models feature 3M<sup>™</sup> Scotchgard<sup>™</sup> Anti-fog coating, applied to both sides of the lens.

#### **Key Features**

- Cord Control System for 3M<sup>™</sup> Corded Earplugs
- Absorbs 99.9 % UVA and UVB
- Wrap-around lens design
- Non-removable nose piece
- Optional removable foam gasket

### **Overview of CCS Installation Instructions**

Always read and follow all User Instructions.

Image	Instructions
	1. Make a loop with the earplug cord.
	2. Thread loop through the temple-tip starting from outside, making sure the earplug is toward eyewear front. Make sure earplug end is facing the front of the glass.
	3. Pass finger inside the loop.
	4. Pull on each end of cord until it is secured in the wave located on the end of the temple.
	5. Pull earplug cord to straighten in temple. Do not pull on earplug as this could result in the separation of the earplug and cord.
	6. To remove: Pull both ends of the cord (together) away from the temple. OR - Cut earplug cord with a scissor.
	7. When earplugs are not in use, the CCS feature allows the corded earplugs to dual as a lanyard - a cord worn around the neck for carrying your protective eyewear.

#### Storage

Eyewear should be stored between temperatures of 50 °F (10 °C) and 86 °F (30 °C), in dry conditions with no chemical exposure, out of any direct exposure to radiation (sunlight, IR, UV, etc.), and in non-abrasive environments.

#### Cleaning

Thoroughly clean all surfaces with a mild soap solution and lukewarm water, then rinse. Dry with a soft cloth or tissue. Do not use any solvents on these lenses.
