

PCN: PCN040075**DATE:** November 15, 2004**Subject:** Add OSE Taiwan as Alternate Assembly Site for SOIC.**To:****Description of Change:**

Orient Semiconductor Electronics (OSE), assembly subcontractor located in Taiwan, is currently being qualified by Cypress to assemble SOIC package.

OSE has been qualified by Cypress and in production since 1996 for other plastic packages.

Assembly materials and processes to be used for SOIC in OSE assembly are similar to those used by Cypress existing subcontractors.

Benefit of Change: The change will provide an increase in assembly manufacturing capacity, reducing cycle time and improving service to our customers.

ADVANCE PRODUCT CHANGE NOTIFICATION

CY2309NZSC-1HT	
----------------	--

Customer Part Numbers Affected:**Affected Parts:** 00**Qualification Status:**

Qualification (#042109) is in-progress and expected completion date is September 1, 2004.

Sample Status:

Request samples from your Sales representative.

Approximate Implementation Date:

January 2005

Anticipated Impact:

Better service due to increased assembly capacity and reduced cycle time.

Method Of Identification:

All parts assembled in OSE Taiwan will have country of origin (COO) code marked on top of the package. COO for OSE Taiwan is "TWN".

Response Required:

Your company requires written approval which must be received within 90 days of the product change notification. If your approval is not received within 90 days, the change will be incorporated without further notice.
