**Eliminate Eye Strain and Neck Fatigue,
Enhance Productivity**

The SharpVue Inspection System reduces eye strain and neck fatigue associated with traditional microscopes because there is no need to constantly look through eyepieces

SharpVue Inspection System

Sophisticated, Versatile & User-Friendly

Aven's SharpVue is a sophisticated system designed to simplify inspection processes. Equipped with a specialized auto focus HD camera, the SharpVue can achieve up to 1x—30x optical magnification and up to 300x digital magnification. View true-to-life magnified images in real time on an HDMI capable monitor or via USB connection to a computer. This digital microscope inspection system eliminates neck fatigue and eye strain associated with frequent microscope use.

Features

- Built-in LEDs for ultra bright shadow-free illumination
- 9" fixed working distance ensures large and small objects can be viewed
- Wireless remote controls all features, including zoom and focus
- USB and HDMI outputs to connect to an HD monitor or computer
- Includes imaging software for video/image capture, measurement and analysis

SharpVue Inspection System

Item #	26700-135
Resolution	1080p (monitor) / 720p (computer)
Magnification	1x—30x optical, 300x digital
Output	USB / HDMI
Lighting	Built-in LEDs
Focus	Auto/manual
Image/Video Capture	With imaging software
Dimensions	16.14" x 6.7" x 13.78"
Weight	9.9 lbs
Package Contents	Aven SharpVue Inspection System, imaging software, wireless remote, HDMI cable, power supply

SharpVue Inspection System

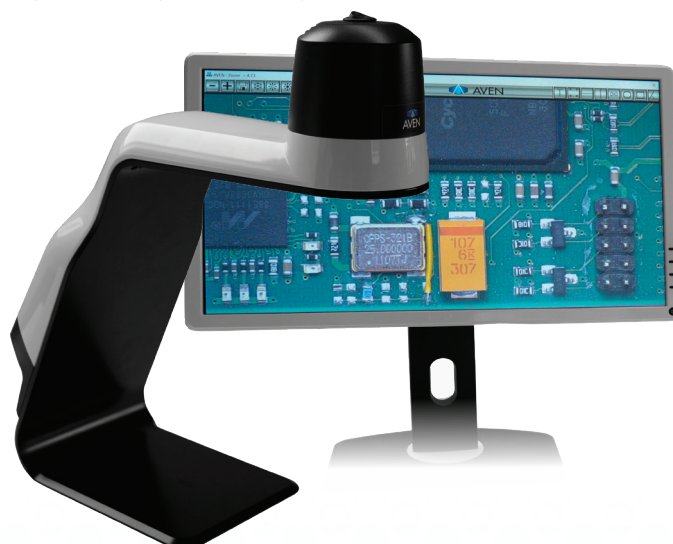

Modern Design, Easy To Use

Aven's SharpVue Inspection System combines advanced digital microscope technology with comfort and ease-of-use. Adjust your settings with the included easy-to-use remote control.

Eliminate Eye Strain & Fatigue

The SharpVue offers crystal-clear 1080p imaging with a magnification of 1x–30x optical zoom and up to 300x digital zoom. View your images on an HD monitor and eliminate the eye strain and fatigue from frequent microscope use.

Built-In Features

Built-in LEDs provide even, ultra bright shadow-free illumination

Connect to your monitor for lag-free 1080p inspection with the HDMI port, or use the USB port to connect to your computer
