Per Symbols standard ANSI/ESD S8.1 "The ESD protective symbol differs from the ESD susceptibility symbol, by the addition of an arc around the outside of the triangle and the omission of the slash across the hand and the triangle." "The ESD protective symbol should be used to identify items that are specifically designed to provide ESD protection for ESDS [ESD sensitive] assemblies and devices. Examples of these are packaging, ESD protective clothing and personnel grounding equipment. The ESD protective symbol should also be used on items designed to replace static generative materials. Examples of these items are ESD protective work station equipment, trash can liners, and chairs. The item is to be ESD protective or non-static generative by design."
