

Industrial SATA SSDs

Perfect storage solutions for system designers and builders

Kingston[®] offers a line of Industrial SATA solid-state drives created specifically for system designers and builders. The Industrial SATA line of SSDs includes, 2.5-inch, mSATA, M.2 2242 and M.2 2280 form factors. Kingston Industrial SSDs incorporate advanced SATA 3, 6Gbps controllers that automatically perform wear-leveling, garbage collection and other vital NAND Flash management features. Kingston Industrial SSDs also incorporate high speed next-generation 3D NAND Flash. They are a drop-in replacement for hard drives and deliver up to 20x greater performance as well as higher reliability than HDD's.

KEY BENEFITS

System designers and builders rely on consistent storage products. Kingston offers the following benefits with the Industrial SSD product line:

- Controlled BOM and Firmware Ensures there are no changes to key components after customer qualification.
- PCN Support All generational changes and firmware updates are handled through a controlled and timed process.
