## 6GK5216-0BA00-2FC2

SCALANCE XC216EEC manageable Layer 2 IE switch; IEC 62443-4-2 certified; 16x 10/100 Mbit/s RJ45 ports; 1x console port; diagnostics LED; redundant power supply; with painted printed-circuit boards; NAMUR NE21-compliant; temperature range -40 °C to +70 °C; assembly: DIN rail/S7 mounting rail/wall redundancy functions; office features (RSTP, VLAN,...); PROFINET IO device; Ethernet/IP-compliant; C-PLUG slot;

product type designation	SCALANCE XC216EEC		
transfer rate			
transfer rate	10 Mbit/s, 100 Mbit/s		
interfaces / for communication / maximum configuration for mo	interfaces / for communication / maximum configuration for modular devices		
number of electrical ports / maximum	16		
interfaces / for communication / integrated			
number of electrical connections			
<ul> <li>for network components or terminal equipment</li> </ul>	16; RJ45		
number of 10/100 Mbit/s RJ45 ports / integrated			
with securing collar	16

security information	
security information	Siemens provides products and solutions with industrial security functions that support the secure operation of plants, solutions, machines, equipment and/or networks. They are important components in a holistic industrial security concept. With this in mind, Siemens' products and solutions undergo continuous development. Siemens recommends strongly that you regularly check for product updates. For the secure operation of Siemens products and solutions, it is necessary to take suitable preventive action(e.g. cell protection concept) and integrate each component into a holistic, state-of-the-art industrial security concept. Third-party products that may be in use should also be considered. For more information about industrial security, visit http://www.siemens.com/industrialsecurity. To stay informed about product updates as they occur, sign up for a product-specific newsletter. For more information, visit http://support.automation.siemens.com. (V3.4)
