# SIEMENS

### Data sheet

### 6GK5766-1GE00-7DA0

product type designation product description

#### IWLAN Access Point

IWLAN Access Point, SCALANCE WAM766-1, 1 radio, 2.4/5 GHz, IEEE 802.11ax (Wi-Fi 6), 2 N-Connect connections, iFeatures support via CLP, 1201 Mbps (gross) per radio, 1x 10/100/1000 Mbps M12 socket, redundant 24 V DC, M12 L-coded , PoE, IP65, -30...+60 °C, CLP slot, DI/DO, A-coded, observe national approvals! Cert ID: MSAX65-W1-M12-E2, FCC ID: LYHMSAX65V1 operation outside of USA/Israel scope of delivery: sealing caps for connections

| transfer rate   |                                      |
|---|--------------------------------------|
| transfer rate   |                                      |
| <ul> <li>with WLAN / maximum</li> </ul>                                   | 1201 Mbit/s                          |
| <ul> <li>for Industrial Ethernet</li> </ul>                               | 10, 100, 1000 Mbit/s                 |
| transfer rate / for Industrial Ethernet                                   |                                      |
| • minimum   | 10 Mbit/s                            |
| • maximum   | 1000 Mbit/s                          |
| interfaces  |                                      |
| number of electrical/optical connections / for gigabit Ethernet / maximum | 1                                    |
| number of electrical connections  |                                      |
| <ul> <li>for network components or terminal equipment</li> </ul>          | 1                                    |
| <ul> <li>for power supply</li> </ul>                                      | 1                                    |
| <ul> <li>for redundant voltage supply</li> </ul>                          | 1                                    |
| type of electrical connection   |                                      |
| <ul> <li>for network components or terminal equipment</li> </ul>          | M12 interface (8-pole, X-coded), PoE |
| <ul> <li>for redundant voltage supply</li> </ul>                          | M12 interface (4-pin, L-coded)       |
| design of the removable storage   |                                      |
| • CLP   | Yes                                  |
| CLP iFeatures   | Yes                                  |
| memory  |                                      |
| design of the removable storage   |                                      |
| • CLP   | Yes                                  |
| CLP iFeatures   | Yes                                  |
| interfaces / wireless   |                                      |
| number of radio cards / permanently installed                             | 2                                    |
| transmission mode / for multiple input multiple output (MIMO)             | 2x2                                  |
| number of spatial streams   | 2                                    |
| number of electrical connections / for external antenna(s)                | 2                                    |
| type of electrical connection / for external antenna(s)                   | N-Connect (socket)                   |
| product feature / external antenna can be mounted directly on device      | Yes                                  |
| signal inputs/outputs   |                                      |
| number of digital inputs  | 1                                    |
| number of digital outputs   | 1                                    |
| type of electrical connection / at the digital inputs/outputs             | M12 interface (4-pin, A-coded)       |
| signal range / at digital input   | -30 V DC 30 V                        |
| signal range / at digital output  | 24 V / 0.5 A DC                      |
| operational current / of the signaling contacts / at DC / at 30 V /       | 0.008 A                              |

| maximum  |  |
|--|--|
| supply voltage, current consumption, power loss  |  |
| type of voltage / of the supply voltage  | Redundant 24 V DC Power Supply, M12, L-coded   |
| supply voltage   |  |
| from Power-over-Ethernet according to IEEE802.3at for<br>type 1 and IEEE802.3af                                | 48 V   |
| consumed current   |  |
| • at DC / at 24 V  | 0.55 A   |
| <ul> <li>at DC / at 24 V / sleep mode / maximum</li> </ul>   | 0.013 A  |
| <ul> <li>with Power-over-Ethernet according to IEEE802.3at for<br/>type 1 and IEEE802.3af / typical</li> </ul> | 0.27 A   |
| power loss [W]   |  |
| • at DC / at 24 V  | 13.2 W   |
| <ul> <li>at DC / at 24 V / sleep mode / maximum</li> </ul>   | 0.3 W  |
| <ul> <li>with Power-over-Ethernet according to IEEE802.3at for<br/>type 1 and IEEE802.3af / typical</li> </ul> | 12.96 W  |
| supply voltage / 1   |  |
| <ul> <li>from M12 power Connector (L-coded) for redundant<br/>voltage supply</li> </ul>                        | 24 V   |

| security information   | Siemens provides products and solutions with industrial security functions that support the secure operation of plants, solutions, machines, equipment and/or networks. They are important components in a holistic industrial security concept. With this in mind, Siemens' products and solutions undergo continuous development. Siemens recommends strongly that you regularly check for product updates. For the secure operation of Siemens products and solutions, it is necessary to take suitable preventive action(e.g. cell protection concept) and integrate each component into a holistic, state-of-the-art industrial security concept. Third-party products that may be in use should also be considered. For more information about industrial security, visit http://www.siemens.com/industrialsecurity. To stay informed about product updates as they occur, sign up for a product-specific newsletter. For more information, visit http://support.automation.siemens.com. (V3.4) |
