## **SIEMENS**

Data sheet US2:CLM1B10277

Class CLM

Mechanically held lighting contactor, Contactor amp rating 20A, 0 N.C. / 10 N.O. poles, Non-combination type, Enclosure NEMA type 1, Indoor general purpose use

product brand name

| product brand name                                                       | Class CLIVI                          |
|--------------------------------------------------------------------------|--------------------------------------|
| design of the product                                                    | Mechanically held lighting contactor |
| special product feature                                                  | Energy efficient; Quiet operation    |
| General technical data                                                   |                                      |
| weight [lb]                                                              | 9 lb                                 |
| Height x Width x Depth [in]                                              | 14 × 8 × 7 in                        |
| touch protection against electrical shock                                | NA for enclosed products             |
| installation altitude [ft] at height above sea level maximum             | 6560 ft                              |
| country of origin                                                        | USA                                  |
| Contactor                                                                |                                      |
| size of contactor                                                        | 20 Amp                               |
| number of NO contacts for main contacts                                  | 10                                   |
| number of NC contacts for main contacts                                  | 0                                    |
| operating voltage for main current circuit at AC at 60 Hz maximum        | 600 V                                |
| contact rating of the main contacts of lighting contactor                |                                      |
| <ul> <li>at tungsten (1 pole per 1 phase) rated value</li> </ul>         | 20A @250V 1p 1ph                     |
| <ul> <li>at tungsten (2 poles per 1 phase) rated value</li> </ul>        | 20A @250V 2p 1ph                     |
| <ul> <li>at tungsten (3 poles per 3 phases) rated value</li> </ul>       | 20A @250V 3p 3ph                     |
| <ul> <li>at ballast (1 pole per 1 phase) rated value</li> </ul>          | 20A @347V 1p 1ph                     |
| <ul> <li>at ballast (2 poles per 1 phase) rated value</li> </ul>         | 20A @600V 2p 1ph                     |
| <ul> <li>at ballast (3 poles per 3 phases) rated value</li> </ul>        | 20A @600V 3p 3ph                     |
| <ul> <li>at resistive load (1 pole per 1 phase) rated value</li> </ul>   | 30A @347V 1p 1ph                     |
| <ul> <li>at resistive load (2 poles per 1 phase) rated value</li> </ul>  | 30A @600V 2p 1ph                     |
| • at resistive load (3 poles per 3 phases) rated value                   | 30A @600V 3p 3ph                     |
| Auxiliary contact                                                        |                                      |
| number of NC contacts for auxiliary contacts                             | 0                                    |
| number of NO contacts for auxiliary contacts                             | 0                                    |
| number of total auxiliary contacts maximum                               | 4                                    |
| contact rating of auxiliary contacts of contactor according to UL        | NA                                   |
| Coil                                                                     |                                      |
| type of voltage of the control supply voltage                            | AC                                   |
| control supply voltage                                                   |                                      |
| <ul> <li>at AC at 50 Hz rated value</li> </ul>                           | 265 277 V                            |
| at AC at 60 Hz rated value                                               | 265 277 V                            |
| apparent pick-up power of magnet coil at AC                              | 600 VA                               |
| apparent holding power of magnet coil at AC                              | 6 VA                                 |
| operating range factor control supply voltage rated value of magnet coil | 0.85 1.1                             |
| Enclosure                                                                |                                      |
| degree of protection NEMA rating of the enclosure                        | NEMA 1 enclosure                     |
|                                                                          |                                      |

| design of the housing                                                                                              | indoors, usable on a general basis   |
|--------------------------------------------------------------------------------------------------------------------|--------------------------------------|
| Mounting/wiring                                                                                                    |                                      |
| mounting position                                                                                                  | Vertical                             |
| fastening method                                                                                                   | Surface mounting and installation    |
| type of electrical connection for supply voltage line-side                                                         | Screw-type terminals                 |
| tightening torque [lbf·in] for supply                                                                              | 18 18 lbf-in                         |
| type of connectable conductor cross-sections at line-side for AWG cables single or multi-stranded                  | 2x (18 10 AWG)                       |
| temperature of the conductor for supply maximum permissible                                                        | 75 °C                                |
| material of the conductor for supply                                                                               | CU                                   |
| type of electrical connection for load-side outgoing feeder                                                        | Screw-type terminals                 |
| tightening torque [lbf·in] for load-side outgoing feeder                                                           | 18 18 lbf-in                         |
| type of connectable conductor cross-sections for AWG cables for load-side outgoing feeder single or multi-stranded | 2x (18 10 AWG)                       |
| temperature of the conductor for load-side outgoing feeder maximum permissible                                     | 75 °C                                |
| material of the conductor for load-side outgoing feeder                                                            | CU                                   |
| type of electrical connection of magnet coil                                                                       | Screw-type terminals                 |
| tightening torque [lbf·in] at magnet coil                                                                          | 18 18 lbf·in                         |
| type of connectable conductor cross-sections of magnet coil for<br>AWG cables single or multi-stranded             | 2x (18 10 AWG)                       |
| temperature of the conductor at magnet coil maximum permissible                                                    | 75 °C                                |
| material of the conductor at magnet coil                                                                           | CU                                   |
| Short-circuit current rating                                                                                       |                                      |
| design of the fuse link for short-circuit protection of the main circuit required                                  | none                                 |
| design of the short-circuit trip                                                                                   | Thermal magnetic circuit breaker     |
| maximum short-circuit current breaking capacity (lcu)                                                              |                                      |
| • at 240 V                                                                                                         | 5 kA                                 |
| • at 480 V                                                                                                         | 5 kA                                 |
| • at 600 V                                                                                                         | 5 kA                                 |
| certificate of suitability                                                                                         | NEMA ICS 2; UL 508; CSA 22.2, No. 14 |
| Further information                                                                                                |                                      |
