

# Typ EWL-PAB, or

# Product information

EWL-PAB cable protection conduits are made of a specially modified UV-stabilized polyamide 6 in the signal color orange (RAL 2003).

They are characterized by excellent self-extinguishing properties as well as high crush and impact resistance and are suitable for

static and slightly dynamic applications involving low to medium mechanical loads.

#### Applications:

- Electromobility
- Vehicle engineering
