

# Brain Pad™ Arcade

Making games is as much fun as playing them!

BRAINPAD-AR1

## Hand-Held Retro-Gaming Circuit

Microsoft MakeCode Compatible

Science

Technology

Engineering

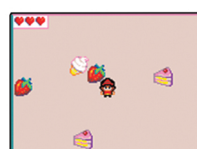

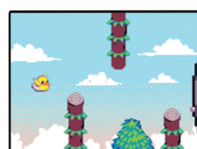

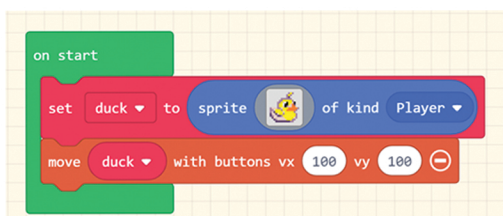

Arts

Math

## Make Games!

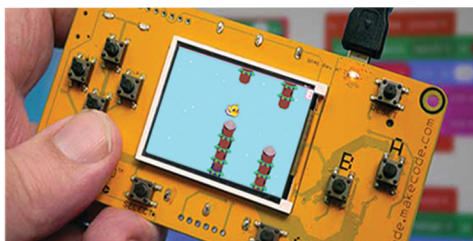

Make games in any modern internet browser, running on PC, Mac or Chromebook.

The Microsoft MakeCode Arcade game engine includes everything needed to build exciting games, from collision detection to particles.

Get up close with the BrainPad Arcade as you touch the actual circuit, use as is or get creative and make your own enclosure out of cardboard or even 3D print one.

## Take'm with You!
