GS-170K1

Mini Breadboard kit

Applications

The GS-170K1 Mini Breadboard Kit is a great way to prototype small projects and introduce basic circuits. It is ideal for:

- Educational labs

- Hobbyists

- Arduino

- Raspberry Pi

Overview

The GS-170 Mini Breadboard Kit is an ideal starter kit for prototyping small projects. Included are 8 mini breadboards (one of each color: black, red, orange, yellow, green, blue, white, and transparent) and 100 pre-cut #24 gauge insulated stranded wire. Each wire comes with gold-plated brass pressed pins on each end to allow for extended insertion life and maximum surface contact. The GS-170 Mini Breadboard Kit comes with both UL and RoHS.

GS-170K1

MINI BREADBOARD KIT

Breadboard Features

- 170 Tie-Points

- POM Plastic Body

- Round hole style

- Nickel plated phosphor bronze spring clip contacts

- Peel and stick adhesive backing

- Fits 0.4-0.7 mm wire diameter

- Measures 4.5 x 3.5 x 1.0 cm

- Maximum current capacity of 1.5 A at 36 V

- RoHS compliant

Applications

The GS-170K1 Mini Breadboard Kit is a great way to prototype small projects and introduce basic circuits. It is ideal for:

- Educational labs

- Hobbyists

- Arduino

- Raspberry Pi

20.5 mm ends
stated wire length

Wire Kit Features

- Flexible stranded copper wire

- Press pinned ends (Gold-plated brass)

- Dupont connectors

- PVC insulation

- RoHS compliant

- UL approved

- Kit contains:

  ‣ (10 pc) 200 mm brown M-F
  ‣ (10 pc) 200 mm blue M-M
  ‣ (20 pc) 150 mm purple M-M
  ‣ (20 pc) 100 mm orange M-M
  ‣ (20 pc) 70 mm green M-M
  ‣ (20 pc) 50 mm yellow M-M
