

Cabinet Rail Mounting Hardware

1463S Series

The 1463S is a hardware kit used to mount rack rails and other vertical rack accessories to Hammond cabinets. The 3/8 x 16 spring-loaded nuts install in seconds and simply push-in and rotate to secure in place into the rack cabinet ganging kit "C" channels.

- 0.75" hex head bolts & washers mount vertical rails and accessories.
- Rack mounting hardware is not included with this kit.

Cabinet Compatibility

- C2, C2RR
- C4, C4RR
- H1
- DCZ4
- 1564
- REFK

 The 1463S is not compatible with our RCH Series. Instead, use the 1421SN.

Part No.	Qty Included
1463S	3 bolts, 3 spring nuts, 3 washers
