# Flange Disconnect Operator Adaptor Kits

## Features

- Used to adapt flange mounted operating mechanisms to all Hammond enclosures with universal cutouts.
- Kits include an adaptor plate and all of the required parts (with instructions) to interlock the main door with the operator mechanism.
- Blank plates are used to cover the flange cutouts in Hammond universal type disconnect enclosures.

| Part No. | Operator Make & Type | Manufacturer Part No. |
|----------|----------------------|-----------------------|
| AK1494FD | Allen Bradley        | 1494F and D           |
| BPAK     | Blank plate          |                       |

| Part No. | Operator Make & Type            | Manufacturer Part No. |
|----------|---------------------------------|-----------------------|
| AKU      | ABB Controls - operating handle |                       |
|          | Disconnect Switch               | DSFHN-HS12            |
|          | Circuit Breaker                 | K7FHD-HS12            |

| Part No.                                              | Operator Make & Type              | Manufacturer Part No. |  |
|-------------------------------------------------------|-----------------------------------|-----------------------|--|
| Allen Bradley - 1494V variable depth operating handle |                                   |                       |  |
| Disconnect Switch                                     |                                   |                       |  |
| 30 to 200                                             | 1494V H1                          | for 2UD, UHD, UHDM    |  |
| 400 to 600                                            | 1494V H2                          | for UHD               |  |
| 400                                                   | 1494V H2                          | for UHDM              |  |
| Circuit Breaker                                       | 1494V H11                         |                       |  |
| Cutler Hammer - operating handle                      |                                   |                       |  |
| Disconnect Switch                                     |                                   | C361H1 or H3          |  |
| Circuit Breaker                                       |                                   |                       |  |
| 150 A                                                 | C371H1 or H3                      |                       |  |
| 250 to 600 A                                          | C371H5 or H7                      | for 2UD               |  |
| 250 to 1200 A                                         | C371H5 or H7                      | for UHD, UHDM         |  |
| Circuit Breaker                                       | C371 Flex-Shaft™ handle mechanism |                       |  |
| General Electric - operating handle                   |                                   |                       |  |
| Disconnect Switch                                     |                                   | STDA1or STDA2         |  |
| Circuit Breaker                                       |                                   | STDA1or STDA2         |  |
| Circuit Breaker Spectra-Flex™ cable operators         |                                   |                       |  |
| 150 to 600 A                                          | STDA1                             |                       |  |
| SK1200 A                                              | STDA3                             |                       |  |
| Siemens I.T.E. Max-Flex™ - operating handle           |                                   |                       |  |
| Disconnect Switch variable depth                      |                                   | FHOHS                 |  |
| Circuit Breaker                                       |                                   |                       |  |
| 125 to 600 A                                          | FHOH                              |                       |  |
| 800 to 2000 A                                         | FHOHN                             |                       |  |
| Square D - class 9422 operating mechanism             |                                   |                       |  |
| Disconnect Switch variable depth                      |                                   | 9422 type A1          |  |
| Circuit Breaker variable depth                        |                                   | 9422 type A1          |  |
| Disconnect Switch with cable mechanism                |                                   | 9422 type A1          |  |
| Circuit Breaker with cable mechanism                  |                                   | 9422 type A1          |  |
