

RADLOK™

Utilizing Amphenol's latest R4 RADSOK® Technology, our RADLOK™ product line was designed to be compact and robust.

Power Interconnect products in today's market often require additional mounting hardware (e.g. washers, clamps, bolts, nuts, etc.) making them prone to costly labor expenses for installation and routine maintenance.

Paired with Amphenol's RADLOK™ PIN, the single finger operation lock feature allows end users to connect any power distribution/storage system in a quick and secure manner.

The RADLOK™ product line is the answer to industries where a custom, reliable, easy to install, rugged, and cost effective solution is required.

Features:

- Voltage Rating: 1000V
- Current Rating: 70A - 400A
- Tool-Free Mechanical Locking
- High cycle durability (500 mating cycles)
- RoHS complaint
- Available in Black, Red, Orange (custom colors available upon request)

NOTE:

1) For all applications, care must be taken to ensure that RADLOK™ connection is protected from the transmittal of any mechanical loads induced by, but not limited to, vibration, bending, the mass of the cable, or shock loading. The cable/wiring should be secured as close to the RADLOK™ as possible. Custom mounting options and recommendations are available upon request.

2) "Stud Size", M for Metric unit & E for Imperial unit. For example, M8 means Stud Size is 8mm; E3/4 means the Stud Size is ¾ inch.

Examples:

- 10.0mm Orange RADLOK™ connector to 3/8" stud hole Lug Terminal, 10ft long 70mm² cable assembly would have part number, **RL4-100-70L3048E3/8**
- 8.0mm Black RADLOK™ connector with Tubular 50mm² cable crimp would have part number, **RL0-080-1-50BK**
- Silver plated 12.0mm RADLOK™ Feed Thru Pin would have part number, **RL9-120-101F1**

* (Leave blank for default connector color or default pin without modification)

** (10mm² cable is recommended for 3.6mm RADSOK®; 16mm²/25mm² cable is recommended for 5.7mm RADSOK®, ...etc)
