

# 858 SERIES

**Amphenol**  
Commercial Products

## Features:

- High speed, high density shielded I/O connectors
- Ribbon contact is on a grid that provides small footprint connectors
- "D" shape interface assures correct polarity
- Metal shells improve EMI / RFI shielding
- Contacts : 14 / 26 / 36 way PCB side connectors
- Accepts a wide variety of cable constructions
- Accepts a wide variety of shielded junction shells

## Overview:

These high density shielded I/O connectors with ribbon contacts (0.5 pitch) provide a reliable connection and EMI / ESD protection. The 858 series connectors have excellent electrical performance in high data rate, low voltage, and differential signal transmission applications.

## Applications:

- Control Systems
- Telecom Equipment
- SCSI Applications
- Scientific Instruments
