

MICRO SWITCH Heavy-Duty Limit Switch (Factory Sealed) **002423**

HDLS LSY-FP Series

Issue 1

Datasheet

DESCRIPTION

Honeywell offers a wide line of heavy duty industrial limit switches including the factory sealed heavy duty limit switches. When the limit switch is exposed to indoor or outdoor environments with adverse wet or dusty conditions, consider the Honeywell harsh-duty, epoxy-encapsulated factory sealed LSY-FP Series of limit switches. The limit switches incorporate the same rugged die-cast metal housings and seals as the HDLS (Heavy Duty Limit Switch) which have been in service for more than 40 years. The metal body of the limit switch is epoxy-encapsulated to prevent dust or liquid migrating to the internal switch contacts which is preferred for adverse environmental conditions.

The LSY-FP Series of limit switches are available with a wide variety of actuating heads with a single pole or double pole contact block. The limit switches are pre-wired with a PVC industrial grade STOOW-A cable (oil resistant and outdoor weather resistance environments) or an integral mini-style connector.

For global acceptance, the LSY-FP Series of limit switches include CE, CSA, and UL certifications.

DIFFERENTIATION

- Epoxy encapsulated body in metal housing to minimize any moisture or dust from entering the switch chamber
- Pre-wired integral cable or “mini-style” connector for reduced installation
- All-metal drive train for reliable operating characteristics
- Side rotary head incorporates stainless steel shaft with bronze bearing for increased mechanical life of up to 50 million operations

FEATURES

- Epoxy encapsulated body with integral cable or connector
- Environmentally sealed; IP 65/66/67 and NEMA 1, 3, 3R, 4, 6, 6P, 12, and 13 (with mini-style connector); IP 65/66/67 and NEMA 1, 3, 3R, 4, 6, 6P, and 12 (with STOOW-A cable)
- Rugged corrosion-resistant metal zinc head and body are phosphate treated and epoxy coated
- Diaphragm seal between head and body provide an extra measure of sealing
- Fluorocarbon seals for chemically harsh environments or fluorosilicone seals for low temperature applications
- Actuator heads can be field adjusted to any one of four positions 90° apart
- Rotary actuated heads are factory adjusted for CW and CCW actuation of the switch. Heads can be field adjusted for CW only or CCW only to actuate switch
- Available with 1NC/1NO or 2NC/2NO double break contacts
- CE, CSA, and UL certifications for global acceptance

POTENTIAL APPLICATIONS

- Machine tools
- Automotive assembly and fabricating machinery
- Material handling
- Outdoor electromechanical structures
- Bales/compactors
- Food and beverage machinery
- Power plants and power generating machinery
- Off-road equipment
- Valves
- Transportation hubs
- Water treatment and waste water treatment equipment

VALUE TO CUSTOMERS

- Harsh-duty design for many tough environments including dust, dirt, grime, heat, and wash down
- Modular design enhances customer flexibility
- Wide variety of actuators, head styles, and switch options
- Silver contacts standard or optional gold-plated contacts
- Made in USA

PORTFOLIO

The heavy-duty HDLS epoxy encapsulated limit switches are a part of Honeywell's heavy duty HDLS Standard Series and the LS2 Stainless Steel Series. Honeywell has a comprehensive line that includes global, medium-duty, compact, hazardous area, and specialty limit switches. To view the entire product portfolio, click [here](#).

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

Table 1. Specifications

Characteristic	Parameter
Product type	MICRO SWITCH heavy-duty epoxy encapsulated limit switches
Certifications	UL, CSA, CE
Reference standards	UL508, CSA C22.2 # 14, EN/IEC 60947-5-1
Housing material	Electrostatic epoxy coated zinc
Actuator heads	<div>Side plunger - adjustable</div> <div>Side roller plunger</div> <div>Top plunger - adjustable</div> <div>Top rotary</div> <div>Wobble - coil spring</div> <div>Side plunger - pin</div> <div>Side rotary</div> <div>Top plunger - pin</div> <div>Wobble - cable</div> <div>Wobble - plastic rod</div> <div>Side plunger maintained - pin</div> <div>Side rotary maintained</div> <div>Top roller plunger</div> <div>Wobble - cat whisker</div> <div>Wobble - spring wire</div>
Termination	SPDT: 5 conductor STOOW-A PVC cable Ø12,7 mm [0.5 in] or 5-pin mini-style connector DPDT: 9 conductor STOOW-A PVC cable Ø15,7 mm [0.62 in] or 9-pin mini-style connector For other terminations, contact your local Honeywell source
Contact options	1NC/1NO, 2NC/2NO, 2NC/2NO center neutral, 2NC/2NO sequential
Contact type	Snap action double break (form Za); same polarity each pole
Contact material	Silver alloy (standard), gold-plated (low-energy applications)
Utilization category	AC15, A600; DC13, R300
Rated operational voltage (Ue)	600 Vac, 250 Vdc
Rated operational current (Ie)	1.2 A, 0.1 A
Rated thermal current (Ith)	10 A, 2.5 A
Rated insulation voltage (Ui)	600 V
Rated impulse withstand voltage (Uimp)	2500 V
Short circuit protection device (SCPD) type and rating	Class J fuse, rated 10 A, 600 V
Pollution degree	3
Sealing	STOOW-A cable: IP65/66/67, NEMA 1, 3, 3R, 4, 6, 6P, 12, 13 Mini-style connector: IP65/66/67, NEMA 1, 3, 3R, 4, 6, 6P, 12
Operating temperature ¹	Refer to table 5 on page 7 for limit switch STOOW-A cable; -20 °C to 105 °C [-4 °F to 221 °F] Mini-style connector; -20 °C to 105 °C [-4 °F to 221 °F]
Vibration	10 g, conforming to IEC60068-2-6
Shock (actuator not fitted)	50 g, conforming to IEC60068-2-27

¹Where temperature extremes are involved, the application should be reviewed to ensure the cable or connector is suitable.

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

Figure 2. Product Nomenclature: Wobble Versions

LSY	J	B	3KQ	-	7M	FP
Switch Type	Actuator Head	Seals	Contact Block & Termination		Wobble Style Heads	Body Style
HDLS Series Epoxy Encapsulated Limit Switch	J Top wobble, momentary	B Fluorosilicone seals for low temp. applications	3KP 1NC/1NO w/ grd, 5 conductor cable		J-Style Wobbles	FP Epoxy encapsulated body
	K Top cat whisker wobble, momentary	C Fluorocarbon seals for higher temp./chem. resistant applications	3KQ 1NC/1NO w/ grd, 5-pin mini-style connector		7A 140 mm [5.5 in], plastic rod	
			5KP 1NC/1NO w/ grd & 120 Vac indicator, 5-conductor cable		7M 330 mm [13.0 in], spring wire	
			5KQ 1NC/1NO w/ grd & 120 Vac indicator, 5-pin mini-style connector		7N 140 mm [5.5 in], flexible cable	
			4LX 2NC/2NO w/ grd, 9-conductor cable		K-Style Wobbles	
			4SX 2NC/2NO w/ gold contacts and grd, 9-conductor cable		8A 140 mm [5.5 in], cat whisker	
			7LR 2NC/2NO w/ grd, 9-pin mini-style connector		8B 190 mm [7.5 in], cat whisker	
			7SR 2NC/2NO w/ gold contacts and grd, 9-pin mini-style connector		8C 140 mm [5.5 in], coil spring	

NOTE: Not all combinations of model codes are available. Please contact your local Honeywell provider for assistance.

Figure 3. Product Nomenclature: Side Rotary Center Neutral and Sequential Versions

LSY	M	B	4NX	-	FP
Switch Type	Actuator Head	Seals	Contact Block & Termination		Body Style
HDLS Series Epoxy Encapsulated Limit Switch	L Side rotary, seq. CW and CCW momentary	B Fluorosilicone seals for low temp. applications	4MX 2NC/2NO sequential w/ grd, 9-conductor cable		FP Epoxy encapsulated body
	M Side rotary, CN, CW, and CCW momentary	C Fluorocarbon seals for higher temp./chem. resistant applications	4TX 2NC/2NO sequential w/ gold contacts and grd, 9-conductor cable		
			7MR 2NC/2NO sequential w/ grd, 9-pin mini-style connector		
			7TR 2NC/2NO sequential w/ gold contacts and grd, 9-pin mini-style connector		
			4NX 2NC/2NO center neutral w/ grd, 9-conductor cable		
			4UX 2NC/2NO center neutral w/ gold contacts and grd, 9-conductor cable		
			7NR 2NC/2NO center neutral w/ grd, 9-pin mini-style connector		
			7UR 2NC/2NO center neutral w/ gold contacts and grd, 9-pin mini-style connector		

NOTE: Not all combinations of model codes are available. Please contact your local Honeywell provider for assistance.

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

MICRO SWITCH HDLS SERIES ACTUATOR HEADS

SIDE ROTARY: Available levers provide greater versatility. Actuating heads may be indexed in any of four positions, 90° apart. All are momentary action except maintained head (LSN Series).

LSA - Standard: 15° maximum pretravel, 5° (single pole) and 7° (double pole) maximum differential travel, 60° minimum overtravel.

LSR - Low operating torque: 0.19 Nm [1.7 in lb] maximum operating torque. 60° minimum overtravel, 15° maximum pretravel.

LSN - Maintained contact: Maintained on counterclockwise rotation and reset on clockwise rotation, and vice versa.

LSP - Low differential: 3° (single pole) and 4° (double pole) maximum differential travel. 68° minimum overtravel, 9° maximum pretravel.

LSH - Low torque, low differential travel: Features low operating torque and narrow differential travel. 68° minimum overtravel.

LSU - Low pretravel: 5° max. pretravel, 70° min. overtravel.

LSL - Sequence action: Delayed action between operation of two poles. 48° minimum overtravel.

LSM - Center neutral: One pole operates on the clockwise rotation, and the other pole on the counterclockwise rotation. 53° minimum overtravel.

TOP ROTARY: Available levers provide greater versatility. Momentary action.

LSB: With 100° minimum overtravel. Various levers that fit side rotary shafts may be used on the top rotary shaft. Switch may be used when increased overtravel is required. Momentary action.

TOP PLUNGERS: Available with 4,83 mm [0.19 in] minimum overtravel. Top pin plungers are offered in pin plunger, an adjustable plunger, and a roller plunger.

LSC - Top pin plunger: A stainless steel plunger for in-line actuating motion. A boot seal on the plunger and a seal between the actuator head and housing. Momentary action.

LSD - Top roller plunger: A stainless steel roller and plunger that is adjustable to 90° angles to accept cam or slide operation from any of two directions. Boot seal on the plunger and a seal between the actuator head and housing. Momentary action.

LSV - Adjustable top pin plunger: Includes a stainless steel adjustable screw. The operating points of the switch can be adjusted from 52,8 mm to 59,3 mm [2.085 in to 2.335 in]. Seals are the same as the pin plunger. Momentary action.

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

MICRO SWITCH HDLS SERIES ACTUATOR HEADS

SIDE PLUNGERS: Available with 4,83 mm [0.19 in] minimum overtravel. Side plungers are offered in plain plunger, an adjustable plain plunger, a roller plunger, and a maintained plunger.

	<p>LSE - Side pin plunger: A stainless steel plunger for actuating motion inline with the plunger travel. Actuating head may be indexed in any of four positions, 90° apart. A boot seal on the plunger and a seal between the head and housing. Momentary action.</p>		<p>LSW - Adjustable side pin plunger: With a stainless steel adjustable screw, this switch has the same features of the side plain plunger plus the means to adjust the operating points of the switch from 41 mm to 47,4 mm [1.615 in to 1.865 in]. Seals are same as side pin plunger. Momentary action.</p>
	<p>LSF - Side roller plunger: With a stainless steel roller plunger, this switch fits in close quarters under cams and slides. The head may be indexed in any of four positions, 90° apart. The roller can be turned vertical or horizontal to the switch. Seals are same as side pin plunger. Momentary action.</p>		<p>LSG - Maintained contact side pin plunger: Offers a maintained contact on actuation of the switch. A reverse motion of the plunger resets the switch. Sealing is the same as other side plunger actuation heads.</p>

WOBBLE LEVER ACTUATING HEADS: Heads come with either a spring wire, plastic rod, or steel cat whisker. Any movement of the lever (except pull) will actuate the switch.

				
<p>LSJ1A-7M - Spring wire: 300 Series SST wire may be formed for special applications.</p>	<p>LSJ1A-7N - Flexible actuator: Designed with a tin-plated cable.</p>	<p>LSK1A-8C - Coil spring: Designed with a 300 Series SST coil spring.</p>	<p>LSJ1A-7A - Plastic rod: Recommended where possible scratching or marring by the actuator is to be avoided.</p>	<p>LSK1A-8A - Cat whisker: 300 Series SST actuator designed for low operating force applications.</p>

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

ELECTROMECHANICAL SWITCHES

Definitions below explain the meaning of operating characteristics. Characteristics shown in tables were chosen as most significant. They are taken at normal room temperature and humidity. These may vary as temperature and humidity conditions differ. Sketches show how characteristics are measured for in-line plunger actuation and rotary actuation.

Linear dimensions for in-line actuation are from top of plunger to a reference line, usually the center of the mounting holes. Rotary actuated HDLS limit switches have the characteristics in degrees of angular rotation.

Differential Travel (D.T.) – Plunger or actuator travel from point where contacts “snap-over” to point where they “snapback.”

Free Position (F.P.) – Position of switch plunger or actuator when no external force is applied (other than gravity).

Full Overtravel Force – Force required to attain full overtravel of actuator.

Operating Position (O.P.) – Position of switch plunger or actuator at which point contacts snap from normal to operated position. Note that in the case of flexible or adjustable actuators, the operating position is measured from the end of the lever or its maximum length. Location of operating position measurement shown on mounting dimension drawings.

Operating Force (O.F.) – Amount of force applied to switch plunger or actuator to cause contact “snap-over.” Note in the case of adjustable actuators, the force is measured from the maximum length position of the lever.

Overtravel (O.T.) – Plunger or actuator travel safely available beyond operating position.

Pretravel (P.T.) – Distance or angle traveled in moving plunger or actuator from free position to operating position.

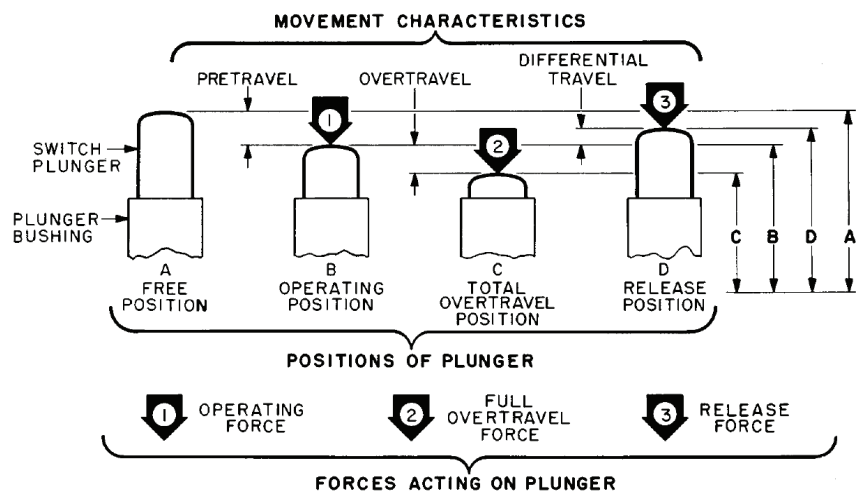

Release Force (R.F.) – Amount of force still applied to switch plunger or actuator at moment contacts snap from operated position to unoperated position.

Total Travel (T.T.) – Distance from actuator free position to overtravel limit position.

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

Table 10. Common levers for use with MICRO SWITCH HDLS Rotary Switches

Levers for use with side or top rotary actuated switches are available in a wide choice of sizes and materials. The most common listings are shown below. Rollers may be on either side of the lever to best match the external acutating mechanism.

							
LSZ51A&C fixed rotary lever, nylon roller, front/back	LSZ51B&D fixed rotary lever, steel roller, front/back	LSZ59A,LSZ59B, LSZ59C,LSZ59D short fixed lever, front/back			LSZ69CA spoke lever - 152 mm [6 in]		
							
LSZ55A,LSZ55B, LSZ55C,LSZ55D offset lever, front/back	LSZ60 one-way roller lever	LSZ53A, LSZ53B, LSZ53D yoke lever, nylon and steel rollers, front/back placement		LSZ54R spring wire 305 mm [12 in]			
							
LSZ52A, LSZ52B, LSZ52C,LSZ52D adj. lever, nylon/ steel, front/back	LSZ52J adjustable lever, nylon roller Ø 25,4 mm [Ø 1 in]	LSZ52K adjustable lever, nylon roller Ø 38,1 mm [Ø 1.5 in]	LSZ54M aluminum rod Ø 140 mm [Ø 5.5 in]	LSZ61 loop 152 mm [6 in]	LSZ67AA* Plastic conveyor roller	LSZ68 plastic rod w/ spring 305 mm [12 in]	LSZ54N stainless steel rod 330 mm [13 in]

* May require orientation of switch and lever to enable gravity to help restore free position of switch.

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

MICRO SWITCH Heavy-Duty Limit Switch, Factory Sealed (LSY-FP Series)

MICRO SWITCH HDLS Side Rotary Levers' Cam Tracking

Levers for side and top rotary switches are normally ordered as separate catalog listings. They also may be ordered by including a suffix to the switch catalog listing (see nomenclature tree in this document) and adding the lever price.

Table 5. Replacement Actuating heads for LSY-FP factory sealed limit switches

Catalog Listing	Actuating Head Type	Description
LSZ1AC	Side rotary, standard torque & standard travel	Replacement head for the LSYAC__ Series side rotary limit switch with fluorocarbon seals
LSZ1AB	Side rotary, standard torque & standard travel w/ low temp. seals	Replacement head for the LSYAB__ Series side rotary limit switch with fluorosilicone seals
LSZ1UC	Side rotary, standard torque & low pretravel	Replacement head for the LSYUC__ Series side rotary limit switch with fluorocarbon seals
LSZ1UB	Side rotary, standard torque & low pretravel w/ low temp. seals	Replacement head for the LSYUB__ Series side rotary limit switch with fluorosilicone seals
LSZ1PC	Side rotary, standard torque & low differential	Replacement head for the LSYPC__ Series side rotary limit switch with fluorocarbon seals
LSZ1PB	Side rotary, standard torque & low differential w/ low temp. seals	Replacement head for the LSYPB__ Series side rotary limit switch with fluorosilicone seals
LSZ1RC	Side rotary, low torque & standard travel	Replacement head for the LSYRC__ Series side rotary limit switch with fluorocarbon seals
LSZ1RB	Side rotary, low torque & standard travel w/ low temp. seals	Replacement head for the LSYRB__ Series side rotary limit switch with fluorosilicone seals
LSZ1HC	Side rotary, low torque & low differential	Replacement head for the LSYHC__ Series side rotary limit switch with fluorocarbon seals
LSZ1HB	Side rotary, low torque & low differential w/ low temp. seals	Replacement head for the LSYHB__ Series side rotary limit switch with fluorosilicone seals
LSZ1LC	Side rotary, standard torque w/ sequential action	Replacement head for the LSYLC__ Series side rotary limit switch with fluorocarbon seals
LSZ1LB	Side rotary, standard torque w/ sequential action & low temp. seals	Replacement head for the LSYLB__ Series side rotary limit switch with fluorosilicone seals
LSZ1MC	Side rotary, standard torque w/ center neutral action	Replacement head for the LSYMC__ Series side rotary limit switch with fluorocarbon seals
LSZ1MB	Side rotary, standard torque w/ center neutral action & low temp. seals	Replacement head for the LSYMB__ Series side rotary limit switch with fluorosilicone seals
LSZ1NC	Side rotary, two position maintained	Replacement head for the LSYNC__ Series side rotary limit switch with fluorocarbon seals
LSZ1NB	Side rotary, two position maintained w/ low temp. seals	Replacement head for the LSYNB__ Series side rotary limit switch with fluorosilicone seals
LSZ1BC	Top rotary, high overtravel	Replacement head for the LSYBC__ Series top rotary limit switch with fluorocarbon seals
LSZ1BB	Top rotary, high overtravel w/ low temp. seals	Replacement head for the LSYBB__ Series top rotary limit switch with fluorosilicone seals
LSZ1CC	Top pin plunger	Replacement head for the LSYCC__ Series top pin plunger limit switch with fluorocarbon seals
LSZ1CB	Top pin plunger w/ low temp. seals	Replacement head for the LSYCB__ Series top pin plunger limit switch with fluorosilicone seals
LSZ1VC	Adjustable top pin plunger	Replacement head for the LSYVC__ Series adjustable top pin plunger limit switch with fluorocarbon seals
LSZ1VB	Adjustable top pin plunger w/ low temp. seals	Replacement head for the LSYVB__ Series adjustable top pin plunger limit switch with fluorosilicone seals
LSZ1DC	Top roller plunger	Replacement head for the LSYDC__ Series top roller plunger limit switch with fluorocarbon seals
LSZ1DB	Top roller plunger w/ low temp. seals	Replacement head for the LSYDB__ Series top roller plunger limit switch with fluorosilicone seals
LSZ1EC	Side pin plunger	Replacement head for the LSYEC__ Series side pin plunger limit switch with fluorocarbon seals
LSZ1EB	Side pin plunger w/ low temp. seals	Replacement head for the LSYEB__ Series side pin plunger limit switch with fluorosilicone seals
LSZ1WC	Adjustable side pin plunger	Replacement head for the LSYWC__ Series adjustable side pin plunger limit switch with fluorocarbon seals
LSZ1WB	Adjustable side pin plunger w/ low temp. seals	Replacement head for the LSYWB__ Series adjustable side pin plunger limit switch with fluorosilicone seals
LSZ1FC	Side roller plunger	Replacement head for the LSYFC__ Series side roller plunger limit switch with fluorocarbon seals
LSZ1FB	Side roller plunger w/ low temp. seals	Replacement head for the LSYFB__ Series side roller plunger limit switch with fluorosilicone seals
LSZ1GC	Side pin plunger, maintained	Replacement head for the LSYGC__ Series maintained side pin plunger limit switch with fluorocarbon seals
LSZ1GB	Side pin plunger, maintained w/ low temp. seals	Replacement head for the LSYGB__ Series maintained side pin plunger limit switch with fluorosilicone seals
LSZ1JCGA	140 mm [5.5 in] plastic rod wobble	Replacement head with actuator for the LSYJC__7A Series plastic rod wobble actuated limit switch with fluorocarbon seals
LSZ1JBGA	140 mm [5.5 in] plastic rod wobble w/ low temp. seals	Replacement head with actuator for the LSYJB__7A Series plastic rod wobble actuated limit switch with fluorosilicone seals
LSZ1JCGM	330 mm [13.0 in] spring wire wobble	Replacement head with actuator for the LSYJC__7M Series spring wire wobble actuated limit switch with fluorocarbon seals
LSZ1JBGM	330 mm [13.0 in] spring wire wobble w/ low temp. seals	Replacement head with actuator for the LSYJB__7M Series spring wire wobble actuated limit switch with fluorosilicone seals
LSZ1JCGN	140 mm [5.5 in] flexible cable wobble	Replacement head with actuator for the LSYJC__7N Series flexible cable wobble actuated limit switch with fluorocarbon seals
LSZ1JBGN	140 mm [5.5 in] flexible cable wobble w/ low temp. seals	Replacement head with actuator for the LSYJB__7N Series flexible cable wobble actuated limit switch with fluorosilicone seals
LSZ1KCHA	140 mm [5.5 in] cat whisker wobble	Replacement head with actuator for the LSYKC__8A Series cat whisker wobble actuated limit switch with fluorocarbon seals
LSZ1KBHA	140 mm [5.5 in] cat whisker wobble w/ low temp. seals	Replacement head with actuator for the LSYKB__8A Series cat whisker wobble actuated limit switch with fluorosilicone seals
LSZ1KCHB	190 mm [7.5 in] cat whisker wobble	Replacement head with actuator for the LSYKC__8B Series cat whisker wobble actuated limit switch with fluorocarbon seals
LSZ1KBHB	190 mm [7.5 in] cat whisker wobble w/ low temp. seals	Replacement head with actuator for the LSYKB__8B Series cat whisker wobble actuated limit switch with fluorosilicone seals
LSZ1KCHC	140 mm [5.5 in] coil spring wobble	Replacement head with actuator for the LSYKC__8C Series coil spring wobble actuated limit switch with fluorocarbon seals
LSZ1KBHC	140 mm [5.5 in] coil spring wobble w/ low temp. seals	Replacement head with actuator for the LSYKB__8C Series coil spring wobble actuated limit switch with fluorosilicone seals

ADDITIONAL MATERIALS

The following associated literature is available at sensing.honeywell.com:

- Product range guide
- Product installation instructions
- Application notes
- CAD drawings
- Product images

WARNING **PERSONAL INJURY**

DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

WARNING **MISUSE OF DOCUMENTATION**

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

For more information

Honeywell Sensing and Internet of Things services its customers through a worldwide network of sales offices and distributors. For application assistance, current specifications, pricing or the nearest Authorized Distributor, visit sensing.honeywell.com or call:

Warranty/Remedy

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship during the applicable warranty period. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgment or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

While Honeywell may provide application assistance personally, through our literature and the Honeywell web site, it is buyer's sole responsibility to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this writing. However, Honeywell assumes no responsibility for its use.
