

**NEW**  

High-Current Connectors for Solar Panel Module CONNECTOR

MB-0220-1

December 2010

# KB1 Series

**RoHS Compliant**

Connections of Solar Panel Modules (Reference)

Pin Connector (-)

Socket Connector (+)

## Summary

The KB1 Series are high-current interconnect connectors for solar panel modules. Just align the connectors, and mating is smoothly completed with an audible and tactile click. The KB1 Series can be easily assembled on site because of the small number of parts.

## Features

- Appearance: Compact size (17.8mm in diameter).
- Lock mechanism (mating): Center impeller type prevents deformation of the spring caused by rough mating and un-mating.
- Smooth insertion and mating of the connectors within 180 Deg. C of rotation.  
(Please refer to supporting documents)
- Lock mechanism (un-mating): Simple lock structure, clear click sound when releasing, one action to un-mate.

## General Specifications

- Number of Contacts: 1 pos.
- Rated Current: 25 A max. (KB1-12-PC/SC)  
10A max. (KB1-12-PC2/SC2)
- Rated Voltage: 1000 VDC / 6000 VAC; Pollution Degree: 3; Over Voltage Category: III
- Contact Resistance: 1.5 mΩ max. (KB1-12-PC/SC), 4 mΩ max. (KB1-12-PC2/SC2)
- Dielectric Withstanding Voltage: 6,000 V
- Operating Temperature Range: -40 Deg. C to 90 Deg. C
- Protection Degree: IP-67 (when mated)

## Materials and Finishes

Component	Material and Finish
Contact	Copper Alloy / Silver Plating
Insulator	Synthetic Resin
Bushing	Synthetic Rubber
Gland Nut	Synthetic Resin
“O” ring	Synthetic Resin

\* The specifications in this brochure are subject to change without notice. Please contact JAE for information.

**Notice:** Products shown in this brochure are made for the applications listed below. However, if the above-mentioned products are to be used in aerospace devices, marine cable-connection devices, atomic power control systems, medical equipment for life-support systems, or any other specific application requiring extremely high reliability, please contact JAE for further information.  
Recommended applications: Computers, Office machines, Measuring devices, Telecommunication devices (Terminals, Mobile devices), AV devices, Household applications, FA devices, etc.
