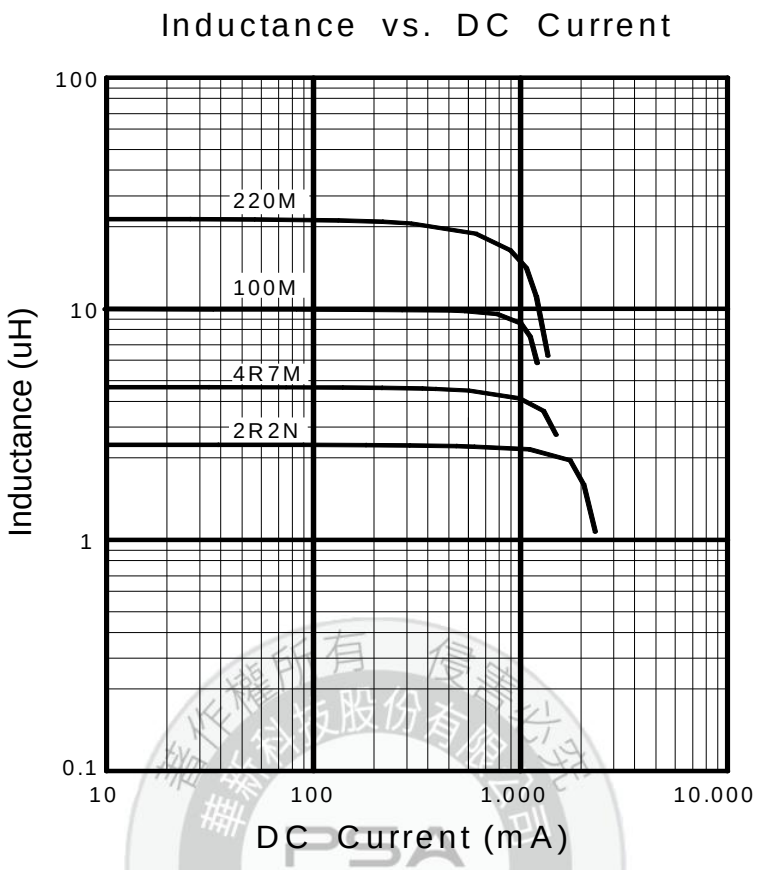
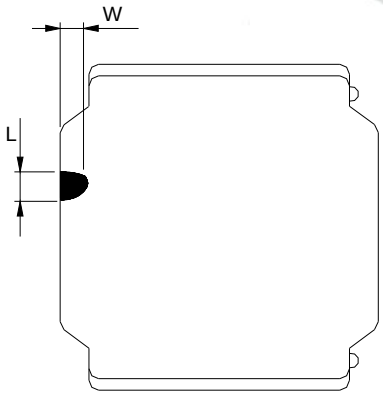
Characteristic Curve



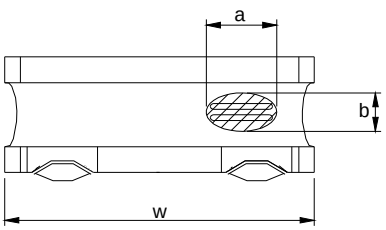
Core Chipping:

The appearance standard of the chipping size in top side, of bottom side ferrite core is following dimension.



L	W
1.5mmMax.	1.5mmMax.

Exposed wire tolerance limit of coating resin part on product side
Size of exposed wire occurring to coating resin is specified below.



① Width direction (dimension a): Acceptable when a<=w/2
Nonconforming when a>w/2
② Length direction (dimension b): Dimension b is not specified.
③ When total area of exposed wire occurring to each sides is not greater than 50% of coating resin area, that is acceptable.
