

An **IDEAL** Company

PowerMod HP connectors, developed by Anderson Power Products, are the innovative New Generation of High Power Interconnections for the Electronics Industry.

The touch-safe PowerMod HP female panel connector is designed for high power connector safety. Male panel connectors are designed for blind mating with female panel connectors or positive latching with female cable connectors. Housings are a black UL94 V-0 flame retardant material.

PowerMod HP contacts are durable and rated for circuit interruption (true hot-pluggable). Series B contacts are available in 1/0 to 4/0 American wire gauge and 50mm<sup>2</sup> to 95mm<sup>2</sup> metric wire sizes for global design freedom.

Our optional blind mating hardware accommodates up to +/- .125" (3mm) of misalignment and is available for both male and female panel connectors.

The PowerMod HP connectors embody the highest quality in the industry and meet all applicable industry standards.

### **Features**

#### • Blind mate panel mount option

Provides over +/- .125" (3mm) of float mount capability

#### •Touch safe female connectors

Provides IP20 protection for safe, energized use outside the electronics cabinet

# • High performance, hot pluggable female contacts

Our patented design provides greater longevity for high power, elevated temperature applications

### Low connector mating forces

Connectors are easily mated and un-mated

#### • Ease of assembly

Intuitive design allows for simplicity of assembly
