## Single Output Power Supplies

### Power With Confidence

**Current: Up to 30 Amps**

**Voltage: Up to 60 Volts**

**Power: Up to 360 Watts**

#### Switching D.C. Power Supply

The T3PS1000 Series is single output, 360 W, switching DC power supply. OVP protects the T3PS1000 Series and their load from unexpected conditions. High regulation is maintained at 0.01 %. Remote sensing adds an extra level of precision by compensating for cable losses between the power supply and load. Turning the output On/Off from an external device is available through Remote control terminals. The T3PS1000 Series is an ideal solution for power-efficient bench-top or portable applications requiring high regulation.

#### Tools for Improved Debugging

- |  |   |
