Product Brief

VDP Industrial Series
Remote Adhesive-Mount Dual-Band WiFi Antenna

The Linx VDP industrial series offers rugged remote-mount dipole antennas having excellent performance for single- and dual-band WiFi/WLAN as well as other 2.4 GHz or 5 GHz ISM and U-NII frequency band applications.

The dual-band VDP industrial antennas are durable, low profile, IP67 ratable, and UV protected. They mount permanently to non-conductive surfaces using the integrated adhesive patch and connect using 2 meters of RG-174/U low-loss cable terminated in an SMA plug (male pin), or RP-SMA plug (female socket) connector for FCC Part 15 compliant applications.

VSWR

Figure 1 provides the voltage standing wave ratio (VSWR) across the antenna bandwidth. VSWR describes the power reflected from the antenna back to the radio. A lower VSWR value indicates better antenna performance at a given frequency. Reflected power is also shown on the right-side vertical axis as a gauge of the percentage of transmitter power reflected back from the antenna.
