DCG10P1200HR

tentative

 $V_{RRM} = 2x 1200 V$ 12.5 A

SiC Schottky Diode

Ultra fast switching Zero reverse recovery Phase leg

Part number **DCG10P1200HR**

Backside: isolated **FL** E72873

Features / Advantages:

- Ultra fast switching
- Zero reverse recovery
- · Zero forward recovery
- Temperature independent switching behavior
- Positive temperature coefficient of forward voltage
- $\bullet T_{VJM} = 175$ °C

Applications:

- Solar inverter
- Uninterruptible power supply (UPS)
- Welding equipment
- Switched-mode power supplies
- Medical equipment
- · High speed rectifier

Package: ISO247

- Isolation Voltage: 3600 V~
- Industry standard outline
- · RoHS compliant
- Epoxy meets UL 94V-0
- · Soldering pins for PCB mounting
- Backside: DCB ceramic
- · Reduced weight
- · Advanced power cycling

Terms & Conditions of Usage
The data contained in this product data sheet is exclusively intended for technically trained staff. The user will have to evaluate the suitability of the product for the intended application and the completeness of the product data with respect to his application. The specifications of our components may not be considered as an assurance of component characteristics. The information in the valid application- and assembly notes must be considered. Should you require product information in excess of the data given in this product data sheet or which concerns the specific application of your product, please contact the sales office, which is responsible for you. Due to technical requirements our product may contain dangerous substances. For information on the types in question please contact the sales office, which is responsible for you. Should you intend to use the product in aviation, in health or live endangering or life support applications, please notify. For any such application we urgently recommend

- to perform joint risk and quality assessments;

- the conclusion of quality agreements;
 to establish joint measures of an ongoing product survey, and that we may make delivery dependent on the realization of any such measures.

IXYS reserves the right to change limits, test conditions and dimensions.
