

3401-020 D*BMA for Connector Savers D*M/D*MA

Features/Benefits

- **ESA/ESCC 3401/020**
(D*BMA connectors saver)
- **Same Savers Connectors for**
D*MA and D*M connectors
- **Standard and High Density available**
- **All size available from 9 to 104 ways**

Typical Applications

- **Payloads and harnesses**
testings
- **To be used when multiple**
mating/unmating cycles
have to be managed

Connectors used as connector savers in test equipment applications where more than normal mating and unmating would soon degrade a permanently mounted connector

It features the rear release contact retention assembly, making it field repairable

Normally supplied with the contacts installed, it can be supplied without contacts (suffix F0 in the description, not marked on the connector)

Male/Female type contacts, size 20 for standard density, size 22 for high density

Packaging unit: 1 piece (plastic bag)

How to order – ESA/ESCC Quality Level

*Materials and Finishes:

Shell material: Aluminium alloy

Shell finish A174: 25,4µm (1000µin) min electroless Nickel (Modification code A174)

Shell finish FR172: 0.70µm (28µm) min Gold over 25.4µm (1000µm) electroless Nickel (Modification code FR172)

Dimensions are shown in mm (inch)
Dimensions subject to change
