

# HWB18 SEALED POWER DISTRIBUTION MODULE

Compact Hard-Wired PDM for 280 Style Components

#### Description

The HWB18 Compact Hard-Wired Box features 18 cavities that accept 2.8mm fuse and relay components and is the perfect fit for accessory circuits and overflow circuits from your main Power Distribution module. The HWB18 can hold plug-in components including MINI fuses, MINI format circuit breakers, 4-pin single throw relays, and 5-pin double throw relays. The HWB18 features durable construction, an IP67/IP69K rating, and a compact size. The user can customize their own circuitry utilizing direct wire-to-component connections which are crimped to the wire harness with grommets to seal the bottom of the module.

#### **Features and Benefits**

- Cover latches keep the cover sealed and securely in place.
- Accepts any mini (280 style) circuit protection component.
- Compact size allows the unit to be installed in vehicles with limited space.
- Ideal for accessory circuits, overflow circuits from main or as a main module on smaller vehicles.
- IP67/IP69K sealed units can be installed virtually anywhere on the vehicle and stands up to road splash and salt spray.
- TPAs (terminal position assurance locks) give secondary locking protection of the wire leads, which help keeps leads securely in place.
- Wires plug into the back of the unit using industrystandard Delphi Metri-Pack Series 280 tanged terminals.
- Available with or without steel mounting bracket. Module snaps into bracket, and is held at 30° angle or 90° angle (bracket dependent) to allow easy viewing and servicing
- Tethers available to prevent loss of cover during service.
- Optional grid on inside cover available; functions as relay retention insert
- HWB18, HWB12 & HWB6 share the same mounting bracket so electrical system modification can be performed without bracket or sheet metal alterations.
- A UL certification for this fuseholder means it can be used as a component in material handling and electric-batterypowered industrial truck applications with confidence that it meets the requirements of UL 583 standards.
