

CODEGRIP for STM32 over USB-C

PID: MIKROE-5275

CODEGRIP for STM32 is a fast USB-C programmer and hardware debugger. It supports all STM32 ARM Cortex-M based MCUs.

Specifications

Architecture	ARM (32-bit)
Silicon Vendor	STM
Category	CODEGRIP

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
ISO 14001: 2015 certification of environmental management system.
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
