

BU-133**(Aluminum Static Grounding Clamp)**

- Mueller's BU-133 is for Static Grounding used on a wide range of containers, drums, and machinery.
- Strong spring pressure and Stainless-Steel points allows the clamp to penetrate multiple layers of paint or corrosion build-up so that the proper contact can be made.
- Quick-release harness helps open the clamp when pulled by the cable and minimizes strain on the cable connection.
- Jaws open to 1" (25.4mm) Max.
- Overall length is 6 1/5" long, 3 1/2" tall, and 1 1/2" max Width.
- Material:
 - Body – Cast Aluminum
 - Tips – Stainless Steel
 - Harness – Stainless Steel Wire Rope
- RoHS 3 Compliant
