

SK-51632

M-216CS22

Double end can socket wrench, 3/8" and 7/16", orange impact resistant thermoplastic ergonomic handle. Used in placing fuses in cable terminals and connecting wires to fuses and binding posts. The walls on both sockets are thin enough so they can be used to work locking devices on most terminals and cabinets. 7" long.

The **SK-51632** is designed for use with our M-216C and other can wrenches, this security key insert is perfect for unlocking 5/16" or 5/32" hex security screws.
