

**CMP-1226**

**CMP-3**

The **CMP-1226** precision crimping tool is perfect for crimping front release connector contact pins onto 12-26 AWG wire. The **CMP-3** turret head is perfect for crimping 12, 16, and 20 front release connector contact pins onto 12-26 AWG wire.

### Features:

- Made to M22520/1-01 specifications
- Creates 4-indent 8-impression crimps, which assure maximum tensile strength
- 8 position selector knob allows you to control the crimp depth with ease
- Smooth precision ratchet ensures the same accurate crimps every time
- Color-coded turret makes it easy to select the correct contact size quickly and easily
- Easy-to-read chart affixed to the side of the turret head conveniently lists corresponding contact and wire size as well as the recommended crimp depth
- Rugged steel frame construction with rubber cushion grips for comfort
- Instruction manual included for installation of turrets and crimping instructions
