

The **ST-450**, **ST-500**, **ST-500ESD**, **ST-550** are adjustable wire strippers and cutters designed for 26-36 AWG, 20-30 AWG, 20-30 AWG ESD Safe, 18-28 AWG wire respectively. These Precision Wire Strippers feature an adjustment dial that allows the operator to select one of the six different insulation strip length. In a single motion, the operator squeezes and pulls the tool. This action engages four specially hardened blades to cleanly cut the wire insulation while the pulling motion breaks the insulation/conductor bond.
