

This product is a pack of 5 replacement blades for the DB-5 Rapid Microduct Deburring Tool. These blades features the following:

- S-shaped blade cleanly deburrs the edges and insides of microduct tubes
- Blade made from tempered HSS (high speed steel) for maximum sharpness and durability
- Can also be used on brass, steel, aluminum, copper, or PVC pipes
- Great for removing debris from 3D printed parts
- Includes (5) Replacement Blades
