

The **UST-135** tool strips RG7 & RG11. The blade UST-235 can be used on 2 sides. One side of the cassette has a strip-stop for consistent strip length.

The **UST-540** tool is suited for coax, round network and flat cables. It is a 5-in-1 tool. CAT6 cables with an OD up to 6.4mm can be stripped. Also featuring cutting cables, including flat cables and 4P/6P type cables. The cassette UST-240 can be used on two sides. One side has a strip-stop.

The included Velcro strip can be used to fold back the braided shield of the cable. Blades are capable of making over 5,00 cuts.
