Panasonic Electronic Components

NEW! PAN1323ETU *BLUETOOTH®* Development Module

PAN1323ETU Triple Mode Simplifies the Development Environment

One development module, three standards: Bluetooth Classic, Bluetooth Low Energy and $\mathsf{ANT}^{\mathsf{TM}}$.

This unique triple mode ETU – that's ETU for "Easy-To-Use" – module plugs directly into Panasonic development kits, Texas Instruments MSP430 and Stellaris experimenter boards with the added benefit of header connectors that simplify prototype wiring and field trials.

The **PAN1323ETU** is the development environment for the PAN13xx family^{*}. This family is based upon Texas Instrument's CC256x integrated circuits and uses a host controlled interface (HCI), a cost effective and flexible means to implement a Bluetooth network. HCI reduces BOM cost by eliminating redundant processing capacity and giving designers the flexibility to work with a controller of their choosing, as the Bluetooth stack resides and executes on the application's host processor.

Bluetooth Low Energy and ANT are ultra-low power network standards. The foundations of Bluetooth Low Energy power consumption are short messages and establishing very fast connections (few ms). Using these techniques, energy consumption is reduced to a tenth of a Classic Bluetooth network. ANT is a wireless sensor network protocol operating in the 2.4 GHz spectrum, designed for ease of use, efficiency and scalability, ANT supports peer-to-peer, star, tree and fixed mesh topologies.

Product Performance:

- The PAN1323ETU is the development tool for Panasonic's entire PAN13xx product line.*
- A single development module for three standards: Bluetooth Classic, Bluetooth Low Energy and ANT.
 - Bluetooth version 4.0
 - ANT is a wireless sensor network protocol designed for ultra-low power applications
 - Bluetooth Low Energy average power consumption is about 1 uA.
- Cost effective and flexible HCI interface
- Easily integrates to Texas Instruments' MSP430 and Stellaris ARM7 controllers
- · Extraordinary range with 10 dbm of Tx power

PAN1323ETU Part Numbers:

PAN1323ETU	J Triple	Mode	Compatibility
------------	-----------------	------	---------------

Series	Antenna	Bluetooth	LE	ANT	Compatibility
PAN1323ETU	х	Х	Х	х	-
PAN1315		Х			
PAN1316		Х	Х		100%
PAN1317		Х		Х	
PAN1325	Х	Х			
PAN1326	Х	Х	Х		100%
PAN1327	Х	Х		Х

Panasonic ideas for life

Panasonic Electronic Components

New Product Introduction

Applications:

- Sports and Fitness
 - Heart Rate Monitor
 - Blood Pressure Sensor
 - Blood Glucose Meter
 - Thermometer

- Assisted Living
 - Flood Alarm
 - Heating Control
 - Automatic Key Control
 - Thermometer
- Industrial Sensors
- Toys
- Entertainment Devices
- Mobile Accessories
- All Bluetooth Wireless
 Applications

Block Diagram PAN1323ETU:

Technical Specifications for PAN1323ETU:

Parameter	Value	Condition / Notes		
Receiver Sensitivity (BER=10 ⁻³)	-93 dBm	GFSK, Typical, Dirty TX On		
Output Power	10 dBm	VDD_In = VBAT		
Power Supply	1.7 - 4.8 V	Battery or DC/DC		
Ultra Low Power Scan	135 uA	1.28s Interval		
GFSK DH1\DH5	33 mA	Full Throughput		
Operating Temperature Range	-20°C to + 70°C	-40°C to + 85°C Optional
