D-SUB combination contact insert, number of positions: 5, material: Steel, tin-plated, connection method: Solder connection, size of housing: 1

Key Commercial Data

Packing unit	10 pc
GTIN	4 0 4 6 3 5 6 0 2 9 2 4 7
GTIN	4046356029247

Technical data

Mechanical characteristics

Connection method	Solder connection
Overvoltage category	III
Degree of pollution	2
Weight	10.96 g
Flammability rating according to UL 94	V0

Ambient conditions

Ambient temperature (operation)	-55 °C 130 °C

Material data

Contact surface material	Gold over nickel
Contact material	Copper alloy
Contact carrier material	PBT-GF
Housing material	Steel, tin-plated
Width	21.6 mm
Height	17.6 mm
Length	31.19 mm

Technical data

Material data

Mounting type	4-40 UNC thread
Electrical characteristics	
Number of positions	5
Rated current	5 A (at 20°C (signal contacts))
Overvoltage category	III
Degree of pollution	2
Rated voltage (III/3)	250 V
Test voltage	1200 V
Insulation resistance	$\geq 5 \text{ G}\Omega$

Standards and Regulations

WARNING: The connectors may not be plugged in or disconnected under load. Ignoring the warning or improper use may damage persons and/or property. • WARNING: Commission properly functioning products only. The products must be regularly inspected for damage. Decommission defective products must be regularly inspected for damage. Decommission defective products immediately. Replace damaged products. Repairs are not possible. • WARNING: Only electrically qualified personnel may install and operate the product. They must observe the following safety notes. The qualified personnel must be familiar with the basics of electrical engineering. They must be able to recognize and prevent danger. The relevant symbol on the packaging indicates that only personnel familiar with electrical engineering are allowed to install and operate the product. • The products are suitable for applications in plant, controller, and electrical device engineering. • When operating the connectors in outdoor applications, they must be separately protected against environmental influences. • Assembled products may not be manipulated or improperly opened. • Only use mating connectors that are specified in the technical data of the standards listed (e.g. the ones listed in the product accessories online at phoenixcontact.com/products). • When using the product in direct connection with third-party manufacturers, the user is responsible.		
Safety note under load. Ignoring the warning or improper use may damage persons and/or property. **WARNING: Commission properly functioning products only. The products must be regularly inspected for damage. Decommission defective products immediately. Replace damaged products. Repairs are not possible. **WARNING: Only electrically qualified personnel may install and operate the product. They must observe the following safety notes. The qualified personnel may install and operate the product. They must be same the standillar with the basics of electrical engineering. They must be able to recognize and prevent danger. The relevant symbol on the packaging indicates that only personnel familiar with electrical engineering are allowed to install and operate the product. **The products are suitable for applications in plant, controller, and electrical device engineering. **When operating the connectors in outdoor applications, they must be separately protected against environmental influences. **Assembled products may not be manipulated or improperly opened. **Only use mating connectors that are specified in the technical data of the standards listed (e.g. the ones listed in the product accessories online at phoenixcontact.com/products). **When using the product in direct connection with third-party manufacturers, the user is responsible. **Por operating voltages > 50 V AC, conductive connector housings must be grounded **Only use tools recommended by Phoenix Contact **The installation notes/Design In documents online on the download page at phoenixcontact.com/products must be observed for this product. **Use a protective cap to protect connectors that are not in use. The suitable accessories are available online in the accessory section of the product at phoenixcontact.com/products. **Operate the connector only when it is fully plugged in and interlocked.	Flammability rating according to UL 94	V0

Technical data

Standards and Regulations

Ensure that when laying the cable, the tensile load on the connectors does not exceed the upper limit specified in the standards.
Observe the minimum bending radius of the cable. Lay the cable without twisting it.
VDE 0100/1.97 § 411.1.3.2 and DIN EN 60 204/11.98 § 14.1.3 are applicable when combining several circuits in a cable and/or connector

Environmental Product Compliance

REACh SVHC	Lead 7439-92-1
China RoHS	Environmentally Friendly Use Period = 50 years
