Your advantages

- Space-saving installation due to the narrow overall width of 6.2 mm
- Signaling without additional auxiliary power, thanks to the mechanical status indicator
- Optional remote signaling module monitors up to 40 items, without additional wiring
- The signal is not influenced during maintenance work, thanks to the impedance-neutral insertion and removal of protective plugs
- Error-free replacement of protective plugs, thanks to coding
- Safe behavior in the event of overload, thanks to the integrated disconnect device
- Simple testing and documentation with CHECKMASTER 2, thanks to pluggable protective modules

Key Commercial Data
