MKR MEM SHIELD

ARDUINO

The Arduino MKR MEM shield will allow you to add more flash memory and storage. It provides 2-megabytes of flash memory. It also includes a slot for adding a microSD card to store several gigabytes of storage. This can allow you to store data for later analysis.

GENERAL

Input Voltage	3.3 V
Flash	W25Q16JV
Interface	SPI
Power Consumption	10 mA
Weight	9.1 g
Product Code	ASX00008

Mouser Electronics
